DEAD MAN BLAMED FOR THE CRASH IN WHEAT

SWEEPS AWAY FORTUNES OF THE SMALL TRADERS

**JULIUS FLEISCHMANN, DYING IN
FLORIDA, REPORTED LONG
ON WHEAT**

**HIS HOLDINGS OF WHEAT RE-
PORTED THROWN ON THE
MARKET**

(By United Press)
Chicago, Feb. 7.—A dead man was blamed today for the crash in the wheat market yesterday which swept away the fortunes of hundreds of small speculators who came into the market on the strength of reports of fortunes made over night.

When Julius Fleischmann, yeast king, died in Miami, it was reported he was "long 10,000,000 bushels of May wheat and 5,000,000 of July wheat," it was made known. In line with his policy to liquidate fluctuating assets of the estate, his holdings of wheat were thrown on the market, it was said.

The break came around noon after a morning of seeming strength. In the twinkling of an eye the market was turned, and the majority offered to sell, with few takers. The pit broke into a riot, and prices fell so rapidly that at times there was a difference of from one to two cents in prices quoted at the same time in various parts of the pit.

The low point was \$1.85, compared with an opening price of \$1.94. May wheat moved up 1 5-8 cents from the low and closed at that figure.

MAY WHEAT IN A RECOVERY

Chicago, Feb. 7.—May wheat came back with a snap today following yesterday's crash and closed at \$1.91 a bushel, up 4 3-8 cents from the close.

Many weak accounts were shaken out in the crash, leaving the market in stronger hands. The opening price today was \$1.88 1/2. After sagging to \$1.86 3-4 the market spurted to \$1.91 1/4 and then the close was only 1/4 cent off the high.

MANY VISITORS AT ROTARY MONDAY

**RUDOLPH LEE OUTLINES HIGH-
WAY TAXATION—OTHER
GUESTS HERE**

Staples, Feb. 7.—The Rotary club was well attended at the Monday meeting, the members having invited several guests. Rudolph Lee of Long Prairie who was present was called on and gave a very comprehensive outline of the highway taxation program. The club was, as we understand it, on record as favoring the Babcock plan and Mr. Lee fully approved the plan as outlined by late press reports.

C. E. Miller is on the program next Monday, his subject being "Rotary Code of Ethics," and no doubt, will be handled in a masterly manner as Clyde is recognized as a good forceful speaker who can put a lot of kick in his talks on subjects in which he is interested.—Staples World.

Will Link Millions

Chicago, Feb. 7.—The Pullman and Drake hotel millions will be linked when Frances Lowden, daughter of Frank O. Lowden, former governor of Illinois, son-in-law of the elder Pullman, and John B. Drake, Jr., scion of the multimillionaire Chicago hotel family, are married here next Tuesday.

The ceremony, a short one, will be performed by Dr. Frederick F. Shannon, pastor of the Fourth Presbyterian church.

Following a reception, the couple will go to Oregon, Ill., home of the bride, from where they will start their honeymoon, a two-months' tour of Europe.

Doomsday as Set by its Apostles is Total Failure

2 KILLED WHEN TRAIN STRIKES LUMBER WAGON

(By United Press)
Beloit, Wis., Feb. 7.—Mr. and Mrs. J. Lawrence were killed and a daughter was seriously injured at 12:15 p. m. today when their lumber wagon on which they were riding was struck by a Chicago, Milwaukee & St. Paul train three miles north of Stoughton. The injured girl was rushed to Madison. Both horses attached to the wagon were killed and the wagon's contents and occupants were strewn along the track for 100 yards.

GIRL MOTHER IS FREED BY JURY

**JURY ACQUITS IOWA GIRL OF
MURDERING HER
BABY**

Council Bluffs, Ia., Feb. 7.—Miss Blanche Galvin, 22-year-old unwed mother, was on her way back to her father's farm near Massena, Ia., today.

"Go and sin no more," was the verdict of a jury which freed her from a first degree murder charge after deliberating only an hour here last night. The state had demanded that she be hanged, because, it charged, she had deliberately placed her newborn babe on a lawn where it became ill and died from exposure to the chill October air.

The defense tried to prove that Miss Galvin was alone when the child was born. Realizing that she needed help she tried to carry it to a nearby residence. She started back to get a blanket to wrap around the infant, but fainted on again reaching her apartment.

"No one misses or ever will miss that baby as much as Blanche Galvin," John P. Tinley, the girl's attorney, thundered in his closing argument.

"Blanche Galvin took the child to the back yard to get rid of it; she was afraid to face the music," County Attorney Northrop declared in demanding the death penalty.

ORDER OF DE MOLAY MEETS IN ST. LOUIS

St. Louis, Feb. 7.—The fifth annual meeting of the Grand Council, Order of DeMolay, will be held in the Masonic Temple, St. Louis, March 16, 17 and 18. Judge Alexander G. Cochran, of St. Louis, Grand Master Councilor, will preside.

The Grand Council is the central governing body of this young men's organization. It is composed of Freemasons from every state in the Union, Canada, Panama Canal Zone and Porto Rico.

The meeting this year was originally scheduled to be held in San Francisco, but at the request of members of the Grand Council from eastern states was transferred to St. Louis. Jesse M. Whited, of San Francisco, member of the Council for California, acquiesced in the change.

The Order of DeMolay was founded by Frank S. Land, Kansas City, Missouri, in March, 1919. The first Chapter was started with nine young men. There are now more than 155,000 DeMolays belonging to nearly 1,400 Chapters in eight countries. It is an anti-vice, pro-citizen organization. The age limit for membership is sixteen to twenty-one. Mr. Land is now Grand Scribe of the Order.

ADDED TO THE ADVERTISING STAFF OF THE N. P. RY.

St. Paul, Feb. 7.—Ralph W. Hobbs, manager of the Pierce Advertising agency of Fargo, N. D., has been added to the advertising staff of the Northern Pacific.

Hobbs formerly was a Twin City man. His appointment is effective March 1.

FISSURE FOUND MAY LEAD TO THE CAVE PRISON

**HEART-BREAKING STRUGGLE TO
FIND FLOYD COL-
LINS**

**EFFORTS CONCENTRATE ON WID-
ENING CREVICE
LOCATED**

(By United Press)
At the Mouth of Sand Cave, Ky., Feb. 7.—A fissure which apparently leads near the underground prison of Floyd Collins was found today three feet below the floor of the shaft which is being sunk in an effort at rescue.

The crevice is eight inches wide and about eight feet deep. From indications it may have an outlet in the great cavern which Collins says he found before he was trapped eight days ago.

Immediate entrance through the crevice is not possible, but it may mean a saving of hours in the heart-breaking struggle to rescue Collins.

A test by gas to find a second entrance to Collins' prison was abandoned temporarily and all efforts were concentrated on widening the crevice to permit exploration.

It cannot be determined if Collins is alive. His foot pinned under the boulder, without food since last Wednesday and suffering from pneumonia, his condition is critical in the extreme.

"It is doubted if Collins, despite his phenomenal constitution, can live until we reach him, but we shall not let up until we have taken him out," asserted Brigadier General H. H. Denhardt, in charge of operations.

Adjutant General James H. B. Kehoe of Kentucky arrived here today and assumed charge of military forces on the scene. It is planned to send more troops to keep away the crowds of tourists and curiosity seekers flocking here in great numbers.

FIND TUNNEL LEADS TO COLLINS

At the Mouth of Sand Cave, Ky., Feb. 7.—A crevice has been discovered about 2,000 feet from here that may lead down to the prison where Floyd Collins is imprisoned.

Four men, lead by Homer Collins, the prisoner's brother, went into this passage at noon.

Homer has maintained that Floyd entered his prison vault by another tunnel and attempted to emerge through the one that now holds him. After hours of search Homer came upon a crevice.

Creeping into this about 40 feet, he discovered several match sticks. They were the kind Floyd always carried on explorations.

KRUEGER HOTEL BURNED AND IS A TOTAL LOSS

Pine River, Feb. 7.—Fire was discovered in the Krueger hotel at Pequot early Monday morning and had gained such headway it was impossible to check and the building burned to the ground.

Frank Krueger, a former resident of Pine River, was the proprietor. The building was of frame construction, two stories and the loss of the building and contents entailed a loss of between \$6,000 and \$7,000 which is partially covered by insurance.

The fire is thought to have started from the furnace.

RADIO TALK TO BE GIVEN ON LINCOLN

"Abraham Lincoln and Minnesota," is the title of a radio address to be given on Lincoln's birthday, February 12, at 7:30 p. m., from the Twin City broadcasting station WCCO, by Dr. Solon J. Buck, superintendent of the Minnesota Historical society and professor of history in the University of Minnesota.

HOUSEHOLD ARTICLES PRICE SCHEDULE TO BE INVESTIGATED

(By United Press)
Washington, Feb. 7.—A smashing anti-trust drive against manufacturers of various household commodities was forecast here in an investigation undertaken by the justice department.

After analyzing evidence submitted by the Federal Trade commission Attorney General Stone announced he was prepared to move in certain cases as soon as his inquiries are concluded.

"The Aluminum Company of America controlled by Secretary of the Treasury Mellon is controlling prices and is apparently indifferent to a court decree forbidding such practices."

WAR SECRETARY DEFENDS VARIOUS AIR DEPT. CHIEFS

**DECLARES PUBLIC TENDENCY
TO CRITICISE IS
UNJUST**

**MAKES NO DEFENSE AGAINST
MITCHELL'S SPECIFIC
CHARGES**

(By United Press)
Washington, Feb. 7.—Secretary of War Weeks today came to the defense of officers hit directly or indirectly by Brigadier William Mitchell in his fight against air service conditions with a statement declaring the public tendency to criticize was "unwise and unjust."

"It is well for the country to keep in mind," said Weeks, "that they are the men who commanded the American army in France during the war in such manner as to bring everlasting glory to the American army and American people."

Weeks listed "first and foremost" General Pershing and followed with Generals Hines and Harbord and "their subordinates, every one of whom has served well."

"Naturally and necessarily they know about activities in the air service on the other side. It is simply incredible that these officers, based on long experience, should wish to take any course relating to the development of the airship service which were not for the best interests of the future defense of the United States."

The statement made no defense against Mitchell's specific charges.

"POISON PILL" MYSTERY IS NEAR SOLUTION

**MAY BE ABLE TO ESTABLISH
IDENTITY OF STUDENT AT
COLUMBUS DISPENSARY**

**TWO WITNESSES GIVE TESTI-
MONY AT POLICE CHIEF
INVESTIGATION**

(By United Press)
Columbus, O., Feb. 7.—An attempt to establish the identity of a student believed to have been in the dispensary without authority shortly before the strychnine capsules were found held the attention of investigators of Ohio State university poison mystery today.

Evidence that such a student was in the dispensary was obtained today from Leonna Mary Wamhoff of Delphos and Michael Evans of Mingo Junction, who were recalled by John J. Chester, police prosecutor in charge of the probe.

Chester declared the testimony of these two pointed to another student previously examined. He has left town to spend the weekend at his home in Canton but will be questioned on his return Monday.

END OF WORLD FAILED TO COME, MAY COME LATER

**SCORES OF BELIEVERS SAT UP
AWAITING FORECASTED
DOOM**

**ANTICIPATED FIREWORKS DID
NOT START, NOTHING
HAPPENED**

(By United Press)

Philadelphia — Mrs. Rowen ought to be spanked, according to Mrs. Maltide P. Wright, who paid no attention to her daughter's predictions. "It isn't my fault she is acting this way," the mother said, and her son echoed her irritation at his Hollywood sister.

East Patchogue, N. Y., Feb. 7.—Doomsday dawned fair and warmer in these parts.

To all intents and purposes it appeared much the same as those that came before the world came to an end.

Even Robert Reidt, "apostle of doom," admitted it was sort of an anti-climax.

"But it is coming. It may even now be on its way," the little German, his chubby cheeks obscured by a dingy stubble and his eyes wan from peering into an unresponsive future, insisted as the sun came up this morning.

For it must be admitted that even if the crack of doom hadn't been a few hours off schedule it would have found most of the followers of the faithful reformed adventists, fast asleep and dreaming of celestial haloes.

The "coming" that Reidt referred to was the beginning of the end of the world with Christ, approaching on a cloud and the "brides of lambs" gathered in San Diego, 144,000 in number, ready to march to heaven when the trumpets sounded.

Scores of believers in Hollywood, Cleveland, Washington, D. C., Lincoln, Neb., and a few way stations sat up last night waiting for the fireworks to start. Nothing happened.

100 CLEVELAND FOLLOWERS DISAPPOINTED

Cleveland, Feb. 7.—In the dim, drab light of dawn today about 100 followers of Mrs. Margaret Rowen straggled wearily home after a night spent in prayer together, waiting for the crack of doom that did not come.

"We will not believe any prophecies again," Mrs. Theresa Poith, one of the followers, said. The little band went back to homes that were empty of food. Some of the men have not been working for a fortnight, and actual privation faces the majority.

HEAVY FOG FELL IN CHICAGO

Chicago, Feb. 7.—The worst fog in years covered Chicago during the night and early hours today, causing local Rowenites to believe the world was making its last gasp.

So dense was the fog that thousands of automobilists abandoned their machines at curbs for fear of accidents. Scores of crashes were reported from all parts of the city. Numerous robberies were staged behind the thick curtain. Trains and surface cars barely crawled along.

The heavy blanket of fog was caused by yesterday's warm weather, the Weather Bureau said. The thermometer stood at 54 degrees, the warmest February 6 in 39 years.

FEARED END OF THE WORLD, DROWNED HERSELF

Red Wing, Feb. 7.—The body of Mrs. Martin Brohaugh, 65, who feared the end of the world last night, was found in the cistern early today.

Mrs. Brohaugh discussed the approaching doom with members of the

IT PAYS TO BE BEAUTIFUL WHEN FACING A JURY

(By United Press)
Paris, Feb. 7.—Stanislawa, Umlenska, beautiful Polish actress, was acquitted late today on a charge of murdering her sweetheart, whom she killed as he lay dying of cancer in a Paris hospital. The jury was out only three minutes.

MAY ASK PROBE IN GAS RAISES

**PRICE ADVANCES MAY BE INVE-
STIGATED BY THE LEGIS-
LATURE**

(By United Press)
St. Paul, Feb. 7.—The Minnesota legislature will be asked Monday to begin immediately an investigation into the recent gasoline price advances.

Plans were completed today by Representatives Albin S. Pearson and J. R. Sweitzer for introduction of a resolution in the House to this effect.

Prices of gasoline in Minnesota have been advanced three cents a gallon in less than 10 days at filling stations. So-called "low test" gasoline is now selling here for 19.2 cents a gallon.

family last night and retired at 9 o'clock. She was not missed until this morning. A search revealed her body in the cistern.

Already despondent because of ill health, Mrs. Brohaugh is believed to have become temporarily deranged by reading in the newspapers of Reformed Adventists that the end of the world was at hand.

To her daughters Mrs. Brohaugh remarked before retiring that she had read of the coming doom and discussed predictions. She said they might not see her again, but they did not take her seriously.

Apparently the woman lay awake for some time, and then in the stillness of the night decided to wait no longer for the crack of doom. Slipping quietly outdoors, she raised the cistern cover and dropped herself in.

ANOTHER DOOMSDAY SUICIDE RECORDED

St. Paul, Feb. 7.—Another "doomsday" suicide was recorded here today.

Kenneth Frederick, youthful store-room employee of the city hospital, tied a rope to a beam in his quarters, fastened the noose around his neck, and with his hands held his feet off the floor until he died.

He had discussed predictions of approaching doom.

He went to the storeroom late last night. The body was found this morning.

"MILLENIUM" PROPAGANDA TO BE INVESTIGATED

Los Angeles, Calif., Feb. 7.—Official investigation of the "millennium" which failed to materialize as predicted by Mrs. Margaret Rowen, leading prophetess of the Reformed Seventh Day Adventists, was launched today by Los Angeles authorities.

Complaints of disillusioned followers that they had lost all their earthly possessions in anticipation of the world's end at midnight after the forecast by Mrs. Margaret Rowen prompted Chief Investigator Poland to order a complete inquiry.

FANATICAL BELIEF A COLOSSAL CRIME

St. Paul, Feb. 7.—Giving publicity to the fanatical belief of Hollywood Rowenites was a colossal crime, in the opinion of Dr. D. S. Wetherly, St. Paul Adventist pastor.

"Many families spent a haggard night," he said. "I know of many cases where children of impressionable age were frightened terribly. Timid hysterical people have been ringing my telephone almost ceaselessly for days."

WOMAN IN THE CASE BRINGS ON MORE CLUES

**UNDERWORLD ENTANGLEMENT
GIVES TRAIL TO \$310,000
ROBBERY**

**MILWAUKEE DETECTIVES TO AID
ST. PAUL FORCE SOLVING
CRIME**

(By United Press)
Minneapolis, Feb. 7.—An underworld entanglement over a woman today put police on another trail in connection with the \$310,000 robbery last December 8 of the Northwestern Mutual bank of Milwaukee.

"Jimmy" Davenport, nationally known police character and more recently a soft drink bar proprietor in Minneapolis, is held here.

Jack Thieffer, also well known to police, is held in St. Paul.

Milwaukee detectives were scheduled to arrive today.

Chief of Police Ed Murnane, St. Paul, explained that the arrests were brought about by a "tip" from "Paddy" Driscoll, also a police character.

Some time ago "Paddy" had the job of taking care of a woman friend of W. S. Kelton, Chicago safe-cracker, now serving a 40-year sentence in the Waupun, Wis., bastille.

Thieffer, according to the story told police, "stole" Kelton's friend and Driscoll promptly notified the police, who accused Davenport and Thieffer of the robbery.

Both Davenport and Thieffer were taken into custody and the Milwaukee authorities were notified. Chief Murnane said he would release unless Milwaukee detectives showed up. He said he had no evidence on which to hold the man.

PAY YOUR 1925 AUTO TAX NOW

**REDUCTION MAY BE MADE BUT
CAN NOT BE APPLIED UNTIL
NEXT YEAR**

Automobile owners who delay in the payment of their state automobile license in the hope that legislature will provide for a reduction that will apply this year will face the payment of the provided penalty without the benefit of any reduction.

While the bills having to do with auto licenses and the gasoline tax will be the storm center of the present session, both houses are agreed that a reduction if one is made, cannot apply until Jan. 1, 1926.

At the present time the force of clerks employed to handle the license applications is practically without work and there will be a tremendous rush during the few days left before the penalty attaches.

As a bit of advice that will save our readers money we urge that applications for the 1925 license be sent in at once and that under no circumstances do auto owners permit themselves to be influenced by any authorized reports of a reduction that would affect their tax this year.

How Score Stands on Child Labor Amendment

Washington, Feb. 7.—The record of action by states on the child labor amendment so far:

Rejections — Virginia, Delaware, North Carolina, South Carolina, Louisiana, Texas, Utah, Kansas, Tennessee—9.

Ratifications—Arkansas, California, Arizona—3.

Rejection by one house of the legislature—Oklahoma, Ohio, Washington, North Dakota, South Dakota, Wyoming, Nevada, Connecticut, Indiana, Montana—10.

Ratification by one house — New Mexico, Wisconsin—2.

Advisory referendum unfavorable — Michigan—1.

Necessary to ratify, 36 states.

FIND TUNNEL LEADS TO COLLINS

At the Mouth of Sand Cave, Ky., Feb. 7.—A crevice has been discovered about 2,000 feet from here that may lead down to the prison where Floyd Collins is imprisoned.

Four men, lead by Homer Collins, the prisoner's brother, went into this passage at noon.

Homer has maintained that Floyd entered his prison vault by another tunnel and attempted to emerge through the one that now holds him. After hours of search Homer came upon a crevice.

Creeping into this about 40 feet, he discovered several match sticks. They were the kind Floyd always carried on explorations.

KRUEGER HOTEL BURNED AND IS A TOTAL LOSS

Pine River, Feb. 7.—Fire was discovered in the Krueger hotel at Pequot early Monday morning and had gained such headway it was impossible to check and the building burned to the ground.

Frank Krueger, a former resident of Pine River, was the proprietor. The building was of frame construction, two stories and the loss of the building and contents entailed a loss of between \$6,000 and \$7,000 which is partially covered by insurance.

The fire is thought to have started from the furnace.

RADIO TALK TO BE GIVEN ON LINCOLN

"Abraham Lincoln and Minnesota," is the title of a radio address to be given on Lincoln's birthday, February 12, at 7:30 p. m., from the Twin City broadcasting station WCCO, by Dr. Solon J. Buck, superintendent of the Minnesota Historical society and professor of history in the University of Minnesota.

HOUSEHOLD ARTICLES PRICE SCHEDULE TO BE INVESTIGATED

(By United Press)
Washington, Feb. 7.—A smashing anti-trust drive against manufacturers of various household commodities was forecast here in an investigation undertaken by the justice department.

After analyzing evidence submitted by the Federal Trade commission Attorney General Stone announced he was prepared to move in certain cases as soon as his inquiries are concluded.

"The Aluminum Company of America controlled by Secretary of the Treasury Mellon is controlling prices and is apparently indifferent to a court decree forbidding such practices."

WAR SECRETARY DEFENDS VARIOUS AIR DEPT. CHIEFS

**DECLARES PUBLIC TENDENCY
TO CRITICISE IS
UNJUST**

**MAKES NO DEFENSE AGAINST
MITCHELL'S SPECIFIC
CHARGES**

(By United Press)
Washington, Feb. 7.—Secretary of War Weeks today came to the defense of officers hit directly or indirectly by Brigadier William Mitchell in his fight against air service conditions with a statement declaring the public tendency to criticize was "unwise and unjust."

"It is well for the country to keep in mind," said Weeks, "that they are the men who commanded the American army in France during the war in such manner as to bring everlasting glory to the American army and American people."

Weeks listed "first and foremost" General Pershing and followed with Generals Hines and Harbord and "their subordinates, every one of whom has served well."

"Naturally and necessarily they know about activities in the air service on the other side. It is simply incredible that these officers, based on long experience, should wish to take any course relating to the development of the airship service which were not for the best interests of the future defense of the United States."

The statement made no defense against Mitchell's specific charges.

"POISON PILL" MYSTERY IS NEAR SOLUTION

**MAY BE ABLE TO ESTABLISH
IDENTITY OF STUDENT AT
COLUMBUS DISPENSARY**

**TWO WITNESSES GIVE TESTI-
MONY AT POLICE CHIEF
INVESTIGATION**

(By United Press)
Columbus, O., Feb. 7.—An attempt to establish the identity of a student believed to have been in the dispensary without authority shortly before the strychnine capsules were found held the attention of investigators of Ohio State university poison mystery today.

Evidence that such a student was in the dispensary was obtained today from Leonna Mary Wamhoff of Delphos and Michael Evans of Mingo Junction, who were recalled by John J. Chester, police prosecutor in charge of the probe.

Chester declared the testimony of these two pointed to another student previously examined. He has left town to spend the weekend at his home in Canton but will be questioned on his return Monday.

END OF WORLD FAILED TO COME, MAY COME LATER

**SCORES OF BELIEVERS SAT UP
AWAITING FORECASTED
DOOM**

**ANTICIPATED FIREWORKS DID
NOT START, NOTHING
HAPPENED**

(By United Press)

Philadelphia — Mrs. Rowen ought to be spanked, according to Mrs. Maltide P. Wright, who paid no attention to her daughter's predictions. "It isn't my fault she is acting this way," the mother said, and her son echoed her irritation at his Hollywood sister.

East Patchogue, N. Y., Feb. 7.—Doomsday dawned fair and warmer in these parts.

To all intents and purposes it appeared much the same as those that came before the world came to an end.

Even Robert Reidt, "apostle of doom," admitted it was sort of an anti-climax.

"But it is coming. It may even now be on its way," the little German, his chubby cheeks obscured by a dingy stubble and his eyes wan from peering into an unresponsive future, insisted as the sun came up this morning.

For it must be admitted that even if the crack of doom hadn't been a few hours off schedule it would have found most of the followers of the faithful reformed adventists, fast asleep and dreaming of celestial haloes.

The "coming" that Reidt referred to was the beginning of the end of the world with Christ approaching on a cloud and the "brides of lambs" gathered in San Diego, 144,000 in number, ready to march to heaven when the trumpets sounded.

Scores of believers in Hollywood, Cleveland, Washington, D. C., Lincoln, Neb., and a few way stations sat up last night waiting for the fireworks to start. Nothing happened.

100 CLEVELAND FOLLOWERS DISAPPOINTED

Cleveland, Feb. 7.—In the dim, drab light of dawn today about 100 followers of Mrs. Margaret Rowen straggled wearily home after a night spent in prayer together, waiting for the crack of doom that did not come.

"We will not believe any prophecies again," Mrs. Theresa Polth, one of the followers, said. The little band went back to homes that were empty of food. Some of the men have not been working for a fortnight, and actual privation faces the majority.

HEAVY FOG FELL IN CHICAGO

Chicago, Feb. 7.—The worst fog in years covered Chicago during the night and early hours today, causing local Rowenites to believe the world was making its last gasp.

So dense was the fog that thousands of automobilists abandoned their machines at curbs for fear of accidents. Scores of crashes were reported from all parts of the city. Numerous robberies were staged behind the thick curtain. Trains and surface cars barely crawled along.

The heavy blanket of fog was caused by yesterday's warm weather, the Weather Bureau said. The thermometer stood at 54 degrees, the warmest February 6 in 39 years.

FEARED END OF THE WORLD, DROWNED HERSELF

Red Wing, Feb. 7.—The body of Mrs. Martin Brohaugh, 65, who feared the end of the world last night, was found in the eastern early today.

Mrs. Brohaugh discussed the approaching doom with members of the

IT PAYS TO BE BEAUTIFUL WHEN FACING A JURY

(By United Press)
Paris, Feb. 7.—Stanislawa, Umlaska, beautiful Polish actress, was acquitted late today on a charge of murdering her sweetheart, whom she killed as he lay dying of cancer in a Paris hospital. The jury was out only three minutes.

MAY ASK PROBE IN GAS RAISES

**PRICE ADVANCES MAY BE INVE-
STIGATED BY THE LEGIS-
LATURE**

(By United Press)
St. Paul, Feb. 7.—The Minnesota legislature will be asked Monday to begin immediately an investigation into the recent gasoline price advances.

Plans were completed today by Representatives Albin S. Pearson and J. R. Switzer for introduction of a resolution in the House to this effect.

Prices of gasoline in Minnesota have been advanced three cents a gallon in less than 10 days at filling stations. So-called "low test" gasoline is now selling here for 19.2 cents a gallon.

family last night and retired at 9 o'clock. She was not missed until this morning. A search revealed her body in the cistern.

Already despondent because of ill health, Mrs. Brohaugh is believed to have become temporarily deranged by reading in the newspapers of Reformed Adventists that the end of the world was at hand.

To her daughters Mrs. Brohaugh remarked before retiring that she had read of the coming doom and discussed predictions. She said they might not see her again, but they did not take her seriously.

Apparently the woman lay awake for some time, and then in the stillness of the night decided to wait no longer for the crack of doom. Slipping quietly outdoors, she raised the cistern cover and dropped herself in.

ANOTHER DOOMSDAY SUICIDE RECORDED

St. Paul, Feb. 7.—Another "doomsday" suicide was recorded here today.

Kenneth Frederick, youthful store-room employee of the city hospital, tied a rope to a beam in his quarters, fastened the noose around his neck, and with his hands held his feet off the floor until he died.

He had discussed predictions of approaching doom.

He went to the storeroom late last night. The body was found this morning.

"MILLENNIUM" PROPAGANDA TO BE INVESTIGATED

Los Angeles, Calif., Feb. 7.—Official investigation of the "millennium" which failed to materialize as predicted by Mrs. Margaret Rowen, leading prophetess of the Reformed Seventh Day Adventists, was launched today by Los Angeles authorities.

Complaints of disillusioned followers that they had lost all their earthly possessions in anticipation of the world's end at midnight after the forecast by Mrs. Margaret Rowen prompted Chief Investigator Poland to order a complete inquiry.

FANATICAL BELIEF A COLOSSAL CRIME

St. Paul, Feb. 7.—Giving publicity to the fanatical belief of Hollywood Rowenites was a colossal crime, in the opinion of Dr. D. S. Wetherly, St. Paul Adventist pastor.

"Many families spent a haggard night," he said. "I know of many cases where children of impressionable age were frightened terribly. Timid hysterical people have been ringing my telephone almost ceaselessly for days."

WOMAN IN THE CASE BRINGS ON MORE CLUES

**UNDERWORLD ENTANGLEMENT
GIVES TRAIL TO \$310,000
ROBBERY**

**MILWAUKEE DETECTIVES TO AID
ST. PAUL FORCE SOLVING
CRIME**

(By United Press)

Minneapolis, Feb. 7.—An underworld entanglement over a woman today put police on another trail in connection with the \$310,000 robbery last December 8 of the Northwestern Mutual bank of Milwaukee.

"Jimmy" Davenport, nationally known police character and more recently a soft drink bar proprietor in Minneapolis, is held here.

Jack Thieffer, also well known to police, is held in St. Paul.

Milwaukee detectives were scheduled to arrive today.

Chief of Police Ed Murnane, St. Paul, explained that the arrests were brought about by a "tip" from "Paddy" Driscoll, also a police character.

Some time ago "Paddy" had the job of taking care of a woman friend of W. S. Kelton, Chicago safe-cracker, now serving a 40-year sentence in the Waupun, Wis., bastille.

Thieffer, according to the story told police, "stole" Kelton's friend and Driscoll promptly notified the police, who accused Davenport and Thieffer of the robbery.

Both Davenport and Thieffer were taken into custody and the Milwaukee authorities were notified. Chief Murnane said he would release unless Milwaukee detectives showed up. He said he had no evidence on which to hold the man.

PAY YOUR 1925 AUTO TAX NOW

**REDUCTION MAY BE MADE BUT
CAN NOT BE APPLIED UNTIL
NEXT YEAR**

Automobile owners who delay in the payment of their state automobile license in the hope that legislature will provide for a reduction that will apply this year will face the payment of the provided penalty without the benefit of any reduction.

While the bill, having to do with auto licenses and the gasoline tax will be the storm center of the present session, both houses are agreed that a reduction if one is made, cannot apply until Jan. 1, 1926.

At the present time the force of clerks employed to handle the license applications is practically without work and there will be a tremendous rush during the few days left before the penalty attaches.

As a bit of advice that will save our readers money we urge that applications for the 1925 license be sent in at once and that under no circumstances do auto owners permit themselves to be influenced by any authorized reports of a reduction that would affect their tax this year.

How Score Stands on Child Labor Amendment

Washington, Feb. 7.—The record of action by states on the child labor amendment so far:

Rejections — Virginia, Delaware, North Carolina, South Carolina, Louisiana, Texas, Utah, Kansas, Tennessee — 9.

Ratifications — Arkansas, California, Arizona — 3.

Rejection by one house of the legislature — Oklahoma, Ohio, Washington, North Dakota, South Dakota, Wyoming, Nevada, Connecticut, Indiana, Montana — 10.

Ratification by one house — New Mexico, Wisconsin — 2.

Advisory referendum unfavorable — Michigan — 1.

Necessary to ratify, 36 states.

LOCAL NEWS NOTES

of Brainerd, who has just moved to St. Paul to become General Superintendent of the Eastern Division of the Northern Pacific.

The greatest sea battle ever filmed in "Captain Blood" at the New Park Sunday and Monday.

The Lyceum has "The" pictures.

Mickey Edwards, seven year old son of Mr. and Mrs. A. R. Edwards of Brainerd, who has been visiting with his grandmother, Mrs. Carl Malmquist, suffered a painful accident Tuesday evening. The lad was coasting down a hill near the Malmquist home when he landed in a barb wire fence. The wire caught him under the chin and came within an ace of severing the wind pipe. Dr. Wilcox found it necessary to take several stitches in dressing the wound.—Walker Pilot.

Drama League

The Drama League will meet on Monday afternoon at the home of Mrs. Carl Zapffe, 17 North Bluff avenue. Mrs. D. E. Whitney will read "Expressing Willie" by Rachel Crothers. A full attendance is desired.

Episcopal Circle

Mrs. C. L. Burnett's Circle of the St. Paul Episcopal Guild have postponed their card party indefinitely. They will serve a supper on Friday the 13th of February for the church people and their friends.

Monument Proposed To Honor Lumberjack

The erection of a monument to the most picturesque figure in the story of the making of Minnesota, the lumberjack, is advocated in a paper entitled "The Minnesota Lumberjack," by Wright T. Orcutt of Minneapolis, recently read before the Minnesota Historical Society.

Mr. Orcutt calls attention to the fact that a bronze statue of a cowboy is being erected on the capitol grounds at Austin, Texas, and he urges that it would be fitting in Minnesota to honor in similar fashion the lumberjack. "The cowboy is no more typical of the cattle industry of Texas and the western plains than is the lumberjack of the lumber industry of Minnesota and the Northwest," according to Mr. Orcutt. "They each represent a phase of frontier life and monuments to them, suitably inscribed, will effectively direct the attention of future generations to the importance of the great industries of cattle-raising and lumbering in the making of the West." Mr. Orcutt's paper, a study of the lumberjack's methods, characteristics, and life, will soon be published by the Minnesota Historical society.

BOY, 17, FACES CHARGE OF KIDNAPING GIRL, 12

The girl told her parents that on her way home from school Tuesday she accepted a ride in his motor truck, that he drove into the woods and there later abandoned her.

Spend More Money for Teacher Training, Less for Gum, Coffman Asks

St. Paul, Feb. 7.—A plea for more attention to higher education was made to the Kiwanis club at a luncheon yesterday by Pres. Lotus D. Coffman of the University of Minnesota.

He lamented the fact that while America's chewing gum bill is \$50,000,000 a year it pays only \$27,000,000 for the training of teachers.

He said that the tendency of this democracy is to seek substitutes for intelligence.

Re-Allocation to Aid WCCO, Experts Say

The re-allocation of radio wavelengths will mean better reception of WCCO programs throughout the northwest, radio experts said Wednesday.

For some time there has been trouble in hearing WCCO, Minneapolis, and WHB, the Sweeney Auto School station at Kansas City, when both stations were on the air at the same time.

Under the old schedule, WHB operated on 411 meters, and WCCO on 416.4 meters. While no change has been made on the WCCO wave length, WHB has been put on a 355.6 wave length under the new schedule, which will virtually "take it out of the air," insofar as interference with WCCO programs is concerned.

Another change which will improve the reception of WCCO programs is the reduction of the wave length of station WCAL at Northfield, Minn., from 360 meters to 336.9, removing it somewhat further from the WCCO radius.—Minneapolis Tribune.

Best of the Ousted

"Did your last employer give you a reference?"

"Yes, but it doesn't seem to be any good."

"What did he say?"

"He said I was one of the best men his firm had ever turned out."

SATURDAY, FEBRUARY 7, 1925

BABCOCK'S STAND

It is with deep interest that people generally scanned the speech which Charles M. Babcock, state highway commissioner, made at the Traffic Club of Minneapolis. The commissioner said Minnesota's great highway system is one of her world-famed assets, along with the grain fields, the forests, the dairy farms, the iron mines and the ten thousand lakes.

He characterized as utterly false the charges that the highway department was so obsessed that its only thought was to build roads and more roads, with no thought of the taxpayers who are called upon to foot the bills.

We quote in part from his address. "Minnesota's new highway system is linked indissolubly with its farm development. The very nature of farm marketing effects a tie-up between the farmer and the roads which pass his door."

"Most of the misunderstanding has been due to the fact that people do not realize the amount of county road debt that has been saddled onto the state highway department," said Mr. Babcock.

"The total is more than \$23,000,000. The state has agreed to pay these county bonds at maturity. The public examiner has demanded that sinking funds be created and the department has assumed this burden. Had the department not done so, 83 counties would have suffered from increased taxes. More than \$2,000,000 was placed in this sinking fund last year."

"The financing problem is complicated further by the fact that the department in 1925 must pay \$1,533,000 in interest and \$235,000 in bond maturities, in addition to placing \$2,250,000 in the sinking fund, a total of around \$4,000,000."

"Highway maintenance in 1925 will cost over \$4,000,000 as compared with \$3,500,000 in 1924. This brings the budget for the year to over \$8,000,000, a figure large enough to eat up virtually the entire revenue we will receive from the motor license fees. Not a dollar will remain for new construction. Construction is needed to get federal aid. The only way possible to finance new construction this year is through the levy of a gasoline tax. Two cents a gallon would yield \$4,000,000 for the state, enough to enable us to continue our building program. I do not favor an increase in the vehicle tax, but I do favor the gasoline tax."

THEY WORKED IN THEIR BOYHOOD

ADULTS of today generally worked in their boyhood days. This is reflected in the recent argument in the Senate between Senators Caraway of Arkansas and Heflin of Alabama.

"I was born and reared in a two-room house with a dirt floor in the front and I don't know what in the other," said Senator Caraway. "I worked on the farm for \$3 a month and when older I worked as a railroad hand until I was fired for talking more than I worked."

"Why, when the senator was just growing," said Senator Heflin, "I was cutting cotton on the farm and I worked on the farm until I was 19 years old."

At a recent debate in the Brainerd Chamber of Commerce it developed that about every man present was self-supporting at 16 years or under. At 12 Dr. J. A. Thabes started out to carve his own career. At 15 "Dutch" Strout was a helper at a railway station and studying telegraphy in spare time.

TO TAX THE BOOTLEGGERS

A SOURCE of taxation bound to yield much revenue is to be tapped soon by the government. A survey is in progress to ascertain the assets of 6,000 Minnesota bootleggers before the opening of the excise tax court. The bootlegger directory is easily compiled from court records.

The excise tax court opens in St. Paul next month. "There are many of the convicted bootleggers who are without assets in any form," said S. B. Qvale, state prohibition director, "and it will be useless to attempt to collect taxes from them under the internal revenue laws."

Expert investigation will be made, however, and any bootlegger qualified to pay the tax will have to do so, adequately and promptly.

WOMEN SEEK OFFICE

THE office of councilman is one which entails much work, much criticism, much grief and little pay or little praise. It's a real job and the only satisfaction one gets is the still small voice in one's inner consciousness which says, "You did the best you could, old pal."

Three women in Chicago, undeterred by the strenuous life of previous councilmen, are candidates for seats in the council. They are Rev. Rowena Morse Mann, who is a Unitarian preacher and has attained distinction as a speaker; Mrs. Irene M. Lefkow, an attorney, and Mrs. Frank Townley Brown, who is prominent as a club woman.

REMARKABLY GOOD BUTTER

MINNESOTA, producing butter from its sweet cream according to Minnesota Cooperative Creameries association standards, finds that its product is so good that many out of state butter inspectors really have to be educated to judge its material goodness and quality.

The Chicago market, for instance, never before sampled anything so good and it is reported Chicago butter inspectors now must be educated in order to fully judge the transcendent merits of sweet cream butter made according to Minnesota's highest standards.

THE rotorship, in a Baltic sea test, made as high as seven knots an hour during parts of her first long trip. On the average, it is reported, better speed was attained under rotor power than motor power. Revolving metal towers take the place of sails, and fuel is conserved by wind propulsion. Diesel engines are carried in reserve.

POTATOES may soon yield power alcohol to run our automobiles. Australian scientists are developing the project.

A Man From Reno

By BAYARD SHARPE

(© by Western Newspaper Union.)

JOHN KIMBERLY sagged in his spacious office chair, his big hands gripping the polished edge of the mahogany desk. He glared at the grinning office boy.

"Who did he say?"
"Jest told me tuh tell yuh he was a hunk from Reno!"

Kimberly opened the top drawer of his desk—well, they'd found him, after ten years. He pulled at his collar—it seemed as though he could feel the noose tightening around his pudgy neck. No—he mopped the leathery corrugations of his brow; the walls of the room seemed to close in about him, smothering him—Nevada didn't hang her murderers now; she choked them to death with gas.

For ten years, Kimberly had pictured this very moment; at first it had come with a fear for every man in the uniform of the law. Later it had come with a dread of civilians, plain clothes men. Finally both fears had worn away—he had merely dreaded an inevitable something. To forget, he had plunged into business; success had come, but he had never forgotten—and now, the dreaded moment was here.

He rose to his feet and strode to the open window, fighting—fighting with every inch of him for the craftiness that had kept him safe throughout the dreaded years. But in spite of his efforts, he could not concentrate. His nostrils quivered; his lips curled in a snarl—well, they wouldn't get him without a fight; nor would they take him back alive—not on account of a drunken brawl. He groaned; perhaps he had been a trifle hasty—the other fellow had been too overloaded with liquor to be responsible. . . . God! if he could just live that hour over.

Yet, it wasn't an hour; it had happened in a moment. They had been drinking, Jim Breeden, Golden, Carns, and himself. Carns had passed the insult. He had resented; they had come to blows; then guns, and the next thing he had remembered, he was gazing into the ashen green, dead face of Carns. Somehow he had gotten away—of the trip he could remember little; except that Jim Breeden had stuck with him as far as the railroad station in Berdo.

Kimberly paced before the open window, gripping his huge fists.

The office boy coughed.
Started, Kimberly halted, swinging his big body toward the desk. He groped in the open drawer, blindly; his lips snarled, and his beetle brows met. His hand closed over the butt of a blue steel forty-five, and he faced the frosted glass door.

With the gun thrust from his hip, Kimberly grasped the door-knob, then—he wondered. His big body hinged like a huge jackknife; he bent forward and peered through the keyhole.

Then Kimberly's powerful right arm sagged limp, abruptly, the gun barrel swung forward the floor; his big body straightened, and he laughed nervously—Jimmy Breeden. All his fears had been for nothing.

There was a wan smile on his face as he returned to the desk and sat down. He flung the gun into the open drawer and mopped the mist of salty sweat from his eyes. . . . So Jim Breeden had looked him up—well, he'd show him the time of his life—hadn't old Jim staked him out of the country, the night it had happened—stuck with him through the broiling sands of Death Valley, and given him his last dollar when he boarded the eastbound train, in Berdo. Why, Jimmy Breeden would go through—an' high water for him—he knew it.

"Send the gentleman in!"
With a nervous cackle the office boy opened the frosted door and went out. A moment later the man from Reno stepped in the room.

They shook hands, both men seemingly affected with the meeting.

"Well, how's Old Jim?"
"Better'n that, Kim; how's y'r self—seem tuh be settin' on top o' the world?"

It was a proud moment for Kimberly, and he smiled. "Yep—kinda hit the old pay dirt this time, Jim!" He drew up a chair for Breeden and sat down.

But Breeden remained standing. Smiling, he thrust his gnarled hand deep into his inside coat pocket, and tossed a document on the desk.

With the movement Kimberly's eyes caught the gleam of a polished shield on Breeden's faded vest, and fear gripped his heart. . . . Yes, he could see it now—Breeden had become an officer—sheriff or something—and because of the reward, had sold him out. He lunged for the open drawer, screaming:

"You—Extradition!"
Breeden beat him to it, pinning his arms.

"Keep y'r shirt on," he bellowed. "Golden jus' kicked th' bucket! an' signed a confession to th' killin'—Shot Carns in the back. You an' me was too drunk tuh know any different!"

"Jim!" Kimberly wailed.
"Yep!" Breeden grinned. "You can come back tuh Reno now—an' leave any time yuh wanna!"

But Kimberly didn't hear—he was huddled over the desk, sobbing.

Lake Regions

The weather bureau says that the Upper Lake region comprises the territory surrounding Lake Michigan, Lake Huron and Lake Superior, while the Lower Lake region is Lake Erie and Lake Ontario.

Four Vaudeville Acts at New Park Tonight

The New Park will present four big vaudeville acts and the special picture, "On the Banks of the Wabash," tonight at popular prices.

Much Surveyed Land

Judge B. F. Wright of Park Rapids held court in Walker Friday to take arguments in a property line dispute between parties owning adjoining land at Lake Hattie, eight miles east of Backus. The line has been in dispute during the past four years. First it was surveyed by a man named Spencer who located the line over three hundred feet south of what one of the owners contended was the right location. County Surveyor John Green was secured to make a survey and ran a line over 300 feet north of the Spencer survey, and advised one of the proprietors to build his fence. Later Judge Wright ordered Surveyor Dahms to run out the line with the result that Mr. Greens survey was fairly well sustained. Now it is up to Judge Wright to ascertain which one of the three surveys is to be final.—Walker Pilot.

Trapped 16 Skunks

Clarence Snow is credited with the biggest of luck of any one this winter. Out of one den he dug out sixteen skunk for which A. Swadberg Jr. paid him \$38.00, and Walter Rohl \$5.00 for two skunk and James Carner \$9.50 for six weasel. It pays to trap.—Pillager Herald.

Farmers Room at the Court
House

SCOUT TROOP ORGANIZED

Men Present Are "Boys" in Troop
With A. A. Haegel as
Scoutmaster

The first meeting of local men interested in Boy Scout training, was a decided success. The meeting, as was previously announced, was held in the farmers room at the court house, and was well attended.

One of the interesting features of the evening was the organization of a Scout troop, the members being made up of the men present. A. A. Haegel was made scoutmaster of this troop, and took the "boys" through the regular work expected of Scouts when they organize. The hand-clasp, sign, motto, etc., were explained and Scout songs sung.

Rev. N. P. Olmsted, of the First Congregational church was to have given the address of the evening, but was unable to be present, on account of illness. Scout Executive S. S. Shaver took Mr. Olmsted's place, and gave a very fine address on the Philosophy and Social Influence of Scouting.

"In working out the Scout troops," said Mr. Shaver, "We must study the relation of other influences and enterprises within our community. Each section of the town has its own little peculiarities, which will effect the boys in the troops. It must be recognized in planning the programs and in comparisons of troops."

"The life of the child is sensitive," continued the speaker, "A boy who is surrounded with pleasant things in most cases will be of a pleasant nature. Social influences work on their minds and beings. The type of spider web with which we build their lives affects their future."

"Modern civilization is illiterate on child culture. We have departments of government, for agriculture, horticulture and other activities. The average farmer raising pigs for the market is better informed in regard to raising those pigs than the average parent is to the bringing up of his family."

"Our American congress appropriates \$3,000,000 annually for departments which deal with the raising of pigs. This same congress appropriates \$300,000 for the raising of children. It would appear that pigs have more value than our coming generation."

"We have created enormous machines, we have mastered space by the radio, our speed of travel has become tremendous. Just recently we read of a sky scraper towering 57 stories. Are we educating and producing the proper kind of manpower to look after those present day creations?"

"We are told by eminent physicians that the average child comes into the world as an unsought guest. He interferes with the pleasures of a bridge-mad mother and a gold-crazed father, and therefore requires care. He is not wanted, and two-thirds of the boys of America are left to seek out their own salvation."

"The city of Chicago has 1,250 boys' gangs. The membership of these gangs total over 50,000, and a large number are undirected and are controlled by the influence of a boy leader. The number of these gangs whose energy is misdirected is astounding. It is the uncare for, the undirected lad whom you should seek as members of our Scout troops."

"The Boy Scout movement of America is the result of a good turn to William Boyce, editor of the Saturday Ledger-Blade, who recognized the value of the training of the English Scout. Mr. Boyce made a business trip to London, England, became bewildered, and an English lad noticing his predicament offered to guide him to his destination. A tip was offered, which the lad politely refused with the remark that he was a Scout."

"The boy has wonderful possibilities. What will be his outcome? Will he control great inventions and findings of the present day, or will he be a drug on future civilization? Great care must be exercised in dealing with this ever-changing bit of pigment—the youth of America."

The next training class for men will meet on Friday evening, February 13th, at which time Rev. Father James Hogan will be the principal speaker on the subject, "The Boy and his Church."

Lively's stock of Ford parts is complete in every detail. Open day and night.

"AMERICA" IS COMING--Plan On Seeing It--Bring the Children---Insist on Them Seeing It

FAVORABLE OUTLOOK FOR ALL LIVESTOCK

CONSIDERABLE INCREASE IN HOG PRODUCTION NEXT FALL

A considerable increase in hog production next fall, and a corn acreage about the same as in 1924 are recommended by the United States Department of Agriculture in the second section of its annual outlook report released today.

Beef cattle prices this year should average somewhat higher than last year, and those for sheep and wool should be at least on a par with those of 1924, the report says.

Dairymen are urged to make no further expansion in their industry. Higher egg prices may be expected during the season of flush production this year than last, but poultry prices may be lower.

"Hog producers," the report says, "enter 1925 with 18 per cent fewer hogs than a year ago and there is every indication that prices during the next 18 months will be higher than at any time since 1920. Six to eight million fewer pigs will be born this spring than last spring. Fewer sows will farrow next fall than farrowed last fall if producers respond to the unfavorable relation of corn and hog prices as they have done in the past."

"While the 1924 corn crop will probably be well cleaned up an increased acreage in 1925 does not appear advisable in view of the indicated reduction in the feeding demand. Stocks of old corn on farms are likely to be smaller than usual in the beginning of the new crop year 1925 but it appears that not more than an average crop will be required to supply the needs of the country for both feed and commercial purposes."

Higher Beef Cattle Prices Expected

"Prices for beef cattle for 1925 should average somewhat higher than for 1924. The industry is gradually working into a more favorable position due to the relation of beef to competing commodities, especially pork; improved industrial conditions, and in no small measure to the cattleman's own sacrifices. Market receipts will probably be somewhat smaller than in 1924. All conditions indicate that the long-time outlook for the industry is even more favorable."

Advices Against Expansion in Dairying

Further expansion in dairying in

1925 seems inadvisable. A recovery in prices of dairy products could hardly be expected should the number of milk cows be further increased. Domestic production appears adequate, and the foreign dairy situation is such as to keep world market prices low and thus limit the height to which our butter prices can rise without bringing in foreign butter.

Favorable Outlook for Sheep and Wool

"Prospects for the sheep industry in 1925 appear favorable. The

world wool outlook and the prospective meat situation in this country promise prices for 1925 at least on a par with those of 1924. There does not appear to be any immediate danger of overproduction, as the increase in the number of sheep has as yet been only slight.

Outlook for Poultry

"The outlook of the poultry industry during 1925 from the standpoint of market egg prices is favorable while from the standpoint of market poultry prices it is not so encouraging. It seems probable that

higher egg prices will prevail during the season of flush production this year than last. With an abnormally large carry-over of dressed poultry in storage it seems probable that lower prices on market poultry may prevail for at least the first half of the year.

Colt Production Declines

"There are as many horses and mules of working age on farms as will be needed for the coming season, and average prices of work stock are lower than they were a year ago. A decided decrease in colt production during the past few years, however, points to a future shortage of good work stock. This shortage is likely to be acute during the time that colts foaled this year and next, or even young horses purchased now are still in active service."

Strictly a Ford schedule is used in making our charges for repair work. You can charge it at Lively's.

The Coal Dust Twins

Smoke and Soot,

As well known as David and Goliath, as inseparable as Damon and Pythias and to some people as funny as Mutt and Jeff, but to the home they are just plain trouble.

But this is trouble that you can avoid by using KENTUCKY SPECIAL.

KENTUCKY SPECIAL, while not strictly a smokeless coal, yields so little smoke and soot that many customers who formerly used smokeless coal are asking for it.

KENTUCKY SPECIAL contains all of the heat value of the smokeless coals, but only about one-half the ash. By actual test there is less than a bushel of ash to the ton, and 95 per cent pure heat.

Try a load of KENTUCKY SPECIAL and avoid trouble from soot and smoke.

(Written for the United Press)

New York, Feb. 7.—Palm Beach plants the styles that blossom up North in the Summer months.

It is difficult to think in terms of summery frocks with snow piled high on our northern streets, but when one considers that manufacturers are already planning next Fall's frocks and Palm Beach is wearing lingerie gowns and straw hats, one begins to get interested in the coming season. Styles that are sponsored by the smart women at Florida during the Winter months are those which we will be wearing within a few months up North.

The types of frocks and gowns worn by the residents of Palm Beach can be described in a few words. The days when women dressed six times a day and in six different types of clothes each time are past, owing to the strenuous living and the lack of time for changes.

First, there is the sports frock which is worn for tennis, golf, etc., and which is permissible to be worn throughout the entire day, if one has no tea engagements. This season's sports frocks are numerous. There are flannel jumper suits, one-piece frocks with matching coats and silk knit dresses. Perhaps the most popular of the three are the French flannels in solid colors, such as canary, white, madonna blue, tan, etc., which are made into sports-ensembles. That is, the dress is a one-piece affair, usually sleeveless or with long, tight sleeves and the coat is of three-quarter length and of the same material. Again the flannel frock may use a three-quarter length coat of flowered cretonne or French chintz lined in flannel matching the frock to form an ensemble outfit.

Colors for sports wear are most vivid, although colors are usually introduced by way of trimming since the smartest frocks and ensembles seem to be made of plain materials with linings, scarfs and appliques of brilliant shades.

White is as popular for sportswear than ever. Many are made of flow-

as it is for dress wear and one sees many white crepe frocks with red or green scarfs, braiding or banding.

Those who prefer mannish lines will favor the sports topecoats which are invariably in amber tones and trimmed about the collar or hem-border in natural colored furs. Yellowish furs are those most frequently seen on these high colored coats. The all-white coat is very popular also and is trimmed in white fox in like manner. It seems newer to use fur either about the collar and hem. Plaid coats of blanket materials are also considered very smart for beach wear.

Afternoon at Palm Beach

After luncheon Milady changes into her afternoon tea frock, which is usually of pastel shades and made of crepe de chene, georgette or chiffon with transparent flounces and scarfs. Sleeves are mere shoulder extensions and skirts are extremely short. Lace forms the flaring flounces and finishes the scarf ends in most cases. Hosiery matches the frock and shoes are extremely ornamental, being in black, bronze, tan or gray shades. Bright colored shoes are not seen much this season.

Here again at teatime one sees much white. There is one particularly lovely gown of white crepe embroidered on the upper skirt section in bright yellow falling from below the hips to the hem. Another white frock is made in simple lines with a wide band of red roses embroidered about the hips, the green stems and leaves of the flowers extending gracefully into the folds of the circular flare which begins at the knees.

The ensemble suit for afternoon wear is popular. One of the most attractive ones being made of black silk crepe printed in red tulip with a long, slender coat of plain black silk lined with the printed material of the frock.

Evening Wear

Resort evening frocks are a bit fluffier than those we are wearing up north at present. First, there are few beaded gowns, since chiffons trimmed in ostrich or marabou flouncing prevail. Colors are milder than they are up North. There are very few bright reds or greens which are always the winter favorites. White as usual prevails, with canary yellow, pink, pale blue and other pastel tones following in favor.

One sees a few new necklines, such as those which use the material of the frock on one shoulder only, with flesh colored tulle or net holding the frock up on the opposite side. Hems are invariably flaring and some of the newest skirts flare in circular movement from the hip.

Bathing suits are more brilliant

White is as popular for sportswear than ever. Many are made of flow-

ered French chintz which is guaranteed not to fade. White jersey suits embroidered in wool in colors are also popular.

Amethyst as Emblem
The amethyst is an emblem of humility and sobriety. It is dedicated to February and Venus. In the Zodiac it stands for Sagittarius, in metallurgy for copper, in Christian art it is given to St. Matthew, and in the Roman Catholic church it is set in the pastoral ring of bishops, whence it is called the "prelate's gem."

Overtaxing the Mind
The mind by being engaged in a task beyond its strength, like the body strained by lifting at a weight too heavy, has often its force broken, and thereby gets an unaptness or an aversion to any vigorous attempt ever after.

SALTS FINE FOR ACHING KIDNEYS

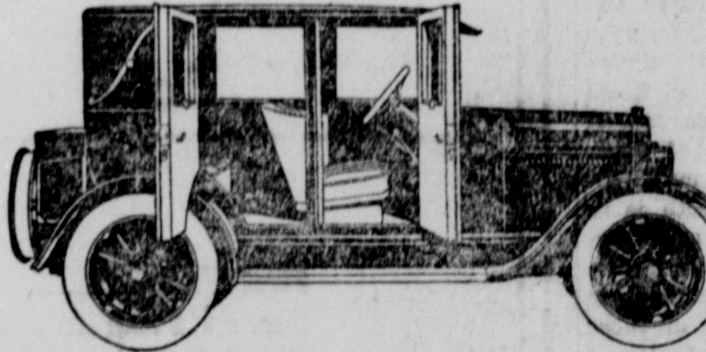

When Your Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and to help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. By all means have your physician examine your kidneys at least twice a year.—Adv.

WILLYS-OVERLAND FINE MOTOR CARS

There is simply no let-up, and no sign of a let-up, in the volume of orders being placed for the remarkable Overland Coupe-Sedan—the only four-passenger closed car priced under \$600 having a modern sliding gear transmission, foot accelerator, speedometer, Auto-Lite starting and lighting system and disc type clutch.

Both the front and rear seats of this Overland Coupe-Sedan adjust backward and forward for the utmost comfort of all passengers. With the removable rear seat and upholstery taken out, you have 50 cubic feet of clear, square carrying space for anything and everything. And the seats and upholstery make up into a full-length comfortable bed, Pullman style, inside the car—for camping trips. Trunk at rear at small extra cost. Easy terms.

Where to Worship Sunday

Year in and year out Brainerd's churches minister to you.

Minister's Meeting

The regular monthly meeting of the Brainerd Ministerial Association will be held at the Y. M. C. A. Monday, Feb. 9, at 10:30 A. M. sharp.

Peoples Congregational Church

N. P. Olmsted, Minister
Sunday school, 10.
Christian Endeavor, 6:45.
Evening service, 7:30.
Prayer meeting, Thursday evening at the home of Miss Jessie Canniff, 413 D St., N. E.

Zion Lutheran Church

Missouri Synod
(Corner Main and Broadway)
10:30 a. m.—English divine services.

Religious instruction for children every Friday at 1:30 p. m.
F. C. Rathert, Pastor

Bethlehem Evangelical Church

(Corner Bluff and Main)
J. H. Bollens, Pastor
German service, 10:30.
Sunday school, 11:30.
There will be a congregational meeting on Tuesday at 8 o'clock at the church basement. All members and friends are urged to attend.

First Presbyterian Church

Alexander G. Patterson
9:30—Our Primary.
10:30—"Near-Religion."
Harry Fullerton will sing.
12 M.—Sunday school.
3 P. M.—Junior C. E.
6:30 P. M.—Intermediate C. E.
7:30—"A Christian's Chance," continuing the Book of the Acts. A service you will enjoy.

St. Paul's Episcopal Church

The services on Sunday next, Septuagesima Sunday, will be as follows:
Sunday school at 10 a. m.
Morning prayer and sermon, 11 a. m.

No evening service.
A cordial invitation is extended to everybody to attend these services.
W. M. Walton, Rector.

Bethlehem Lutheran Church

Seventh Street South
Sunday school at 10 o'clock.
The church council and officers will meet in the church parlors on Monday evening at 8 o'clock.
The Men's club will meet Thursday evening at 8 o'clock, entertained by Mr. and Mrs. Art Johnson. Let every member be there to help celebrate Mr. Johnson's birthday.

Christian Science Society

Services are held in Iron Exchange Hall, Iron Exchange Building.
Sunday service at 11 A. M.
Topic: "Spirit."
Sunday school, 10 A. M.
Wednesday evening service, 8 P. M.
Reading Room at 211 Iron Exchange Bldg. open daily from 2:30. All are welcome.

Swedish Bethany Church

Morning worship at 10:30 a. m.
Sunday school at 12 noon.
Afternoon service at 3 p. m.
Evening service at 7:30 p. m.
At all these services Rev. Skogsborg, the evangelist, will speak. For the afternoon he has announced that he will address himself to the family, especially to parents and children, young and old. He will speak to the Sunday school for 15 minutes also.
All who understand the Swedish language are cordially invited to attend any and all of these services.
P. G. Fallquist, Minister.

First Methodist Church

Services will be held Sunday, Feb. 8th, as follows:
Morning worship, 10:30 A. M.
Celebration of the Holy Communion, with brief message from the pastor. A worshipful service.
The church school at 12 M. A live, well balanced school.
Evening worship. Abraham Lincoln service. Special realistic features.
Good music at all services. Come and enjoy them.
E. A. Cooke, Minister.

First Congregational Church

N. P. Olmsted, Minister
Church school, 9:30.
Morning worship, 10:45. "Lord, Teach Us to Pray." The music will be in charge of the Junior Choir, led by Mrs. Knudsen.
The Tuesday evening Bible class,

having completed the course in Old Testament Introduction, now turns to something quite different, but, from some points of view, of even greater value. Beginning this week we will study "The Meaning of Prayer," based upon Harry Emerson Fosdick's book by that title.

St. Francis Catholic Church

402 North 9th St.
Sunday services—
First Mass, 7:45 a. m.
Second Mass, 9 a. m.
High Mass, 10 a. m.

The Coal Dust Twins

Smoke and Soot,

As well known as David and Goliath, as inseparable as Damon and Pythias and to some people as funny as Mutt and Jeff, but to the home they are just plain trouble.

But this is trouble that you can avoid by using KENTUCKY SPECIAL.

KENTUCKY SPECIAL, while not strictly a smokeless coal, yields so little smoke and soot that many customers who formerly used smokeless coal are asking for it.

KENTUCKY SPECIAL contains all of the heat value of the smokeless coals, but only about one-half the ash. By actual test there is less than a bushel of ash to the ton, and 95 per cent pure heat.

Try a load of KENTUCKY SPECIAL and avoid trouble from soot and smoke.

PALM BEACH

GIVES LINE ON SPRING STYLES

FASHIONS OF SMART WOMEN AT THE FLORIDA RESORTS

WILL SET STYLES FOR SPRING FROCKS IN THE NORTH

By REDDA HOYT
(Fashion Editor of the United Press)
(Written for the United Press)

New York, Feb. 7.—Palm Beach plants the styles that blossom up North in the Summer months.

It is difficult to think in terms of Summer frocks with snow piled high on our northern streets, but when one considers that manufacturers are already planning next Fall's frocks and Palm Beach is wearing lingerie gowns and straw hats, one begins to get interested in the coming season. Styles that are sponsored by the smart women at Florida during the Winter months are those which we will be wearing within a few months up North.

The types of frocks and gowns worn by the residents of Palm Beach can be described in a few words. The days when women dressed six times a day and in six different types of clothes each time are past, owing to the strenuous living and the lack of time for changes.

First, there is the sports frock which is worn for tennis, golf, etc., and which is permissible to be worn throughout the entire day, if one has no tea engagements. This season's sports frocks are numerous. There are flannel jumper suits, one-piece frocks with matching coats and silk knit dresses. Perhaps the most popular of the three are the French flannels in solid colors, such as canary, white, madonna blue, tan, etc., which are made into sports-ensembles. That is, the dress is a one-piece affair, usually sleeveless or with long, tight sleeves and the coat is of three-quarter length and of the same material. Again the flannel frock may use a three-quarter length coat of flowered cretonne or French chintz lined in flannel matching the frock to form an ensemble outfit.

Colors for sports wear are most vivid, although colors are usually introduced by way of trimming since the smartest frocks and ensembles seem to be made of plain materials with linings, scarfs and appliques of brilliant shades.

White is as popular for sportswear than ever. Many are made of flow-

as it is for dress wear and one sees many white crepe frocks with red or green scarfs, braiding or banding.

Those who prefer mannish lines will favor the sports topsuits which are invariably in amber tones and trimmed about the collar or hem with fur. Yellowish furs are those most frequently seen on these high colored coats. The all-white coat is very popular also and is trimmed in white fox in like manner. It seems newer to use fur either about the collar and hem. Plaid coats of blanket materials are also considered very smart for beach wear.

Afternoon at Palm Beach

After luncheon Milady changes into her afternoon tea frock, which is usually of pastel shades and made of crepe de chene, georgette or chiffon with transparent flounces and scarfs. Sleeves are mere shoulder extensions and skirts are extremely short. Lace forms the flaring flounces and finishes the scarf ends in most cases. Hosiery matches the frock and shoes are extremely ornamental, being in black, bronze, tan or gray shades. Bright colored shoes are not seen much this season.

Here again at teatime one sees much white. There is one particularly lovely gown of white crepe embroidered on the upper skirt section in bright yellow falling from below the hips to the hem. Another white frock is made in simple lines with a wide band of red roses embroidered about the hips, the green stems and leaves of the flowers extending gracefully into the folds of the circular flare which begins at the knees.

The ensemble suit for afternoon wear is popular. One of the most attractive ones being made of black silk crepe printed in red tulips with a long, slender coat of plain black silk lined with the printed material of the frock.

Evening Wear

Resort evening frocks are a bit flatter than those we are wearing up north at present. First, there are few beaded gowns, since chiffons trimmed in ostrich or marabou flouncing prevail. Colors are milder than they are up North. There are very few bright reds or greens which are always the winter favorites. White as usual prevails, with canary yellow, pink, pale blue and other pastel tones following in favor.

One sees a few new necklines, such as those which use the material of the frock on one shoulder only, with the frock up on the opposite side. Hems are invariably flaring and some of the newest skirts flare in circular movement from the hip.

Bathing suits are more brilliant

ered French chintz which is guaranteed not to fade. White jersey suits embroidered in wool in colors are also popular.

Amethyst as Emblem

The amethyst is an emblem of humility and sobriety. It is dedicated to February and Venus. In the Zodiac it stands for Sagittarius, in metallurgy for copper, in Christian art it is given to St. Matthew, and in the Roman Catholic church it is set in the pastoral ring of bishops, whence it is called the "prelate's gem."

Overtaxing the Mind

The mind by being engaged in a task beyond its strength, like the body strained by lifting at a weight too heavy, has often its force broken, and thereby gets an unaptness or an aversion to any vigorous attempt ever after.

SALTS FINE FOR ACHING KIDNEYS

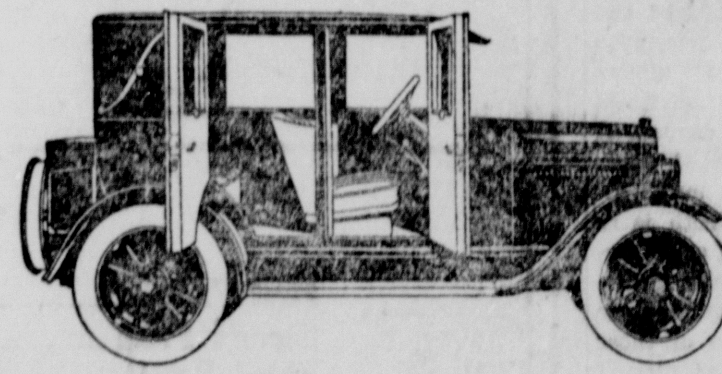

When Your Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and to help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. By all means have your physician examine your kidneys at least twice a year.—Adv.

**PRIZE CONTEST
STARTS MONDAY**

\$250.00 in Prizes to be Given Away
by the Hedeem Distributing
Company

Anyone in Crow Wing Co. Can Enter
the Subscription Contest for
"The Motive" Magazine

The prize contest announced on
this page tonight is an event that
will create considerable interest in
Brainerd and surrounding territory,
as it gives an opportunity to any-
one to turn their spare hours into
money.

The Hedeem Distributing Co. are
giving away \$250.00 in fifteen prizes
in a subscription contest for "The
Motive" magazine. "The Motive" is
a monthly magazine published by the
Motive Publishing Co., with C. H.
Woodward as Editor, and has as its
slogan "Better Living—Better
Health—Better Business." It con-
tains articles on the health of the
baby, the child, the grown-up and
carries many valuable suggestions on
guarding your health, and the proper
way to live, written by prominent
medical doctors and others.

The Hedeem Distributing Co. is a
Brainerd concern, having been locat-
ed here since last October. They are
distributors of Whole Grain Wheat,
and enjoy an ever increasing busi-
ness, having at present between 200
and 300 satisfied customers. They
are located at the corner of Front
and Seventh streets, having their
store room in the basement and con-
test office in the rear of the Com-
mercial State bank.

The company is a firm believer in
trading in Brainerd, and a rule of
the contest is that the prize money
must be spent in Brainerd. They do
not specify any certain store or in-
stitution that must be patronized
but it must be in Brainerd.

The contest offers a good oppor-
tunity for anyone in Crow Wing
County to earn some extra money as
every one who enters gets a commis-
sion on sales besides a chance to win
one of the prizes.

"The Motive" is advancing the
principles of better living and better
health. Life's five fundamentals
are: air, water, sleep, food, exercise.
The law of life is the law of health.
The law of life is the law of health.
Disease being merely the penalty we
pay for violating this immutable
law of nature. Life once set into
operation inevitably proceeds to ex-
haustion whether it be in an animal
or a human. If we fail to replenish
we die, function ceases. If we im-
properly replenish, function alters
and that is disease. Replenishment
means to put back in kind the exact
thing used up or taken away.

Of these five fundamentals of nor-
mal function, civilized man has at-
tempted to substitute denatured and
unnatural food for one of them, with
the result that he has become almost
universally diseased, but civilized
man deludes himself with degrees of
disease, or degrees of altered func-
tions. Constipation is as much dis-
ease as cancer, decayed teeth is as
much evidence of disease as tuber-
culosis, or goitre, or stomach ulcers,
or diabetes, or palsy, or asthma, or
typhoid fever. All or any of these
names of manifestations of altered
functions can be due to but four
causes namely: denatured air, dena-
tured water, denatured food, or vio-
lence.

Whole Grain Wheat is the first
cooked food civilized man ever ate
that has not been denatured in cook-
ing, and is without doubt one of the
epoch-making discoveries of the age.
As confirming the law of life and
demonstrating the cause of disease
as set forth herein, more than 74
human ailments have responded to
the use of this great natural food,
these ailments ranging in severity
from cancer to constipation, includ-
ing such of unknown origin as palsy,
goitre, asthma, diabetes as well as
most of the more common ones in-
cluding tuberculosis, constipation,
stomach ulcers, high blood pressure,
paralysis, eczema, nervous breakdown,
rheumatism, neuritis, overweight and
underweight, says the Whole Grain
Wheat Co.

Whole Grain Wheat is not a medi-
cine, nor in any sense a cure-all for
it is merely a natural food. Its ef-
fects are wholly natural and are
simply the result of the user stopping
the violation of the law of his being
and obeying it by affording replenish-
ing to the bloodstream of the user
of all the elements of which the
blood is normally composed for the
production of normal life-processes.

The Whole Grain Wheat Co. main-
tains a personal service department
at 1916 Sunnyside Ave., Chicago to
which anyone can write and obtain
free information on any physical ail-
ment. Mr. Hedeem says they have
made arrangements to care for a large
number of entries on Monday.

Fifteenth Prize	5.00 and 10% commission on sales

Contestants that do not win a prize will get 10% commission.

Rules of Contest

1. The contest is for the purpose of securing subscriptions for "THE MOTIVE," a magazine published monthly at Chicago in the interest of BETTER LIVING—BETTER HEALTH—BETTER BUSINESS.
2. Subscriptions must be received at the regular price of one dollar per year, from bonafide subscribers for one or more years. Each year counts as a subscription.
3. Subscriptions may be received from anyone in Minnesota.
4. Any resident of Crow Wing County may enter (except employees of the Dispatch or members of their families).
5. All contestants must register at the office of the Hedeem Distributing Co., corner of Front and Seventh streets, Brainerd, Minn., in person or by mail.
6. Contest will open on Monday, February 9, 1925.
7. The person receiving the largest number of subscriptions will receive first prize, the second largest the second prize, etc.
8. The prize money must be spent in Brainerd.
9. Orders will be given each prize winner for the amount of the prize. Winners may purchase anything from a spool of thread to an auto-mobile.
10. All commissions will be paid in cash at the end of the contest.
11. The closing date of the contest will be announced later.

PRIZE CONTEST

STARTS MONDAY

\$250.00 in Prizes to be Given Away
by the Hedeem Distributing Company

Anyone in Crow Wing Co. Can Enter
the Subscription Contest for
"The Motive" Magazine

The prize contest announced on this page tonight is an event that will create considerable interest in Brainerd and surrounding territory, as it gives an opportunity to anyone to turn their spare hours into money.

The Hedeem Distributing Co. are giving away \$250.00 in fifteen prizes in a subscription contest for "The Motive" magazine. "The Motive" is a monthly magazine published by the Motive Publishing Co., with C. H. Woodward as Editor, and has as its slogan "Better Living—Better Health—Better Business." It contains articles on the health of the baby, the child, the grown-up and carries many valuable suggestions on guarding your health, and the proper way to live, written by prominent medical doctors and others.

The Hedeem Distributing Co. is a Brainerd concern, having been located here since last October. They are distributors of Whole Grain Wheat, and enjoy an ever increasing business, having at present between 200 and 300 satisfied customers. They are located at the corner of Front and Seventh streets, having their store room in the basement and contest office in the rear of the Commercial State bank.

The company is a firm believer in trading in Brainerd, and a rule of the contest is that the prize money must be spent in Brainerd. They do not specify any certain store or institution that must be patronized but it must be in Brainerd.

The contest offers a good opportunity for anyone in Crow Wing County to earn some extra money as every one who enters gets a commission on sales besides a chance to win one of the prizes.

"The Motive" is advancing the principles of better living and better health. Life's five fundamentals are: air, water, sleep, food, exercise. The law of life is the law of health. The law of life is the law of health. Disease being merely the penalty we pay for violating this immutable law of nature. Life once set into operation inevitably proceeds to exhaustion whether it be in an animal or a human. If we fail to replenish we die, function ceases. If we improperly replenish, function alters and that is disease. Replenishment means to put back in kind the exact thing used up or taken away.

Of these five fundamentals of normal function, civilized man has attempted to substitute denatured and unnatural food for one of them, with the result that he has become almost universally diseased, but civilized man deludes himself with degrees of disease, or degrees of altered functions. Constipation is as much disease as cancer, decayed teeth is as much evidence of disease as tuberculosis, or goitre, or stomach ulcers, or diabetes, or palsy, or asthma, or typhoid fever. All or any of these names of manifestations of altered functions can be due to but four causes namely: denatured air, denatured water, denatured food, or violence.

Whole Grain Wheat is the first cooked food civilized man ever ate that has not been denatured in cooking, and is without doubt one of the epoch-making discoveries of the age. As confirming the law of life and demonstrating the cause of disease as set forth herein, more than 74 human ailments have responded to the use of this great natural food, these ailments ranging in severity from cancer to constipation, including such of unknown origin as palsy, goitre, asthma, diabetes as well as most of the more common ones including tuberculosis, constipation, stomach ulcers, high blood pressure, paralysis, eczema, nervous breakdown, rheumatism, neuritis, overweight and underweight, says the Whole Grain Wheat Co.

Whole Grain Wheat is not a medicine, nor in any sense a cure-all for it is merely a natural food. Its effects are wholly natural and are simply the result of the user stopping the violation of the law of his being and obeying it by affording replenishing to the bloodstream of the user of all the elements of which the blood is normally composed for the production of normal life-processes.

The Whole Grain Wheat Co. maintains a personal service department at 1916 Sunnyside Ave., Chicago to which anyone can write and obtain free information on any physical ailment. Mr. Hedeem says they have made arrangements to care for a large number of entries on Monday.

Rules of Contest

1. The contest is for the purpose of securing subscriptions for "THE MOTIVE," a magazine published monthly at Chicago in the interest of BETTER LIVING—BETTER HEALTH—BETTER BUSINESS.
2. Subscriptions must be received at the regular price of one dollar per year, from bonafide subscribers for one or more years. Each year counts as a subscription.
3. Subscriptions may be received from anyone in Minnesota.
4. Any resident of Crow Wing County may enter (except employes of the Dispatch or members of their families).
5. All contestants must register at the office of the Hedeem Distributing Co., corner of Front and Seventh streets, Brainerd, Minn., in person or by mail.
6. Contest will open on Monday, February 9, 1925.
7. The person receiving the largest number of subscriptions will receive first prize, the second largest the second prize, etc.
8. The prize money must be spent in Brainerd.
9. Orders will be given each prize winner for the amount of the prize. Winners may purchase anything from a spool of thread to an automobile.
10. All commissions will be paid in cash at the end of the contest.
11. The closing date of the contest will be announced later.

BRAINERD CHAPTER OF THE RED CROSS

Held Its Annual Meeting at Chamber of Commerce Rooms on Thursday

50 WERE IN ATTENDANCE

Mrs. J. A. Thabes, President, Presided—Entire County Well Represented

The Brainerd chapter, American Red Cross, held its annual meeting on Thursday afternoon, February 5th, at the Chamber of Commerce. The meeting was the most successful and the most interesting ever held by this organization. There were about 50 in attendance, and the entire county was well represented.

Mrs. J. A. Thabes, president presided in her usual capable manner. The minutes of the last annual meeting were read and approved.

The reports of G. W. Chadbourne, secretary, and George D. LaBar, treasurer, were read, approved, and these officers were given a vote of thanks for their work of the past year.

S. R. Adair, chairman of the annual roll call in Brainerd, made a very comprehensive report on his work, which showed that the chairman and his assistants had done their work very efficiently and very thoroughly. Much credit is due Mr. Adair for so successfully carrying out this campaign, and he was given a vote of thanks.

Mrs. Thabes read her report of the annual roll call conducted in the rural districts, which report disclosed the fact that the amount given by the rural districts this year is a large increase over any previous year, showing that the chairman had done excellent work and that a greater interest has been aroused in the work of the Red Cross.

Seven directors were elected for a period of three years. They are as follows: Mrs. M. B. Ellingson, Iron-ton, Mrs. Angus Murray, Nisswa, Mrs. E. J. Quinn, Mrs. A. H. Aspholm, Mrs. W. W. Smythe, Mrs. Hughey, and Miss Ada Dye, of Brainerd.

A very interesting program was carried out, papers being read by those in close touch with Red Cross work, as to the accomplishment of the organization and the Red Cross nurse in Crow Wing county.

Miss Christine Huseby, a teacher in the rural schools, told of the benefits of the Red Cross nurse in the rural schools and rural homes. Miss Huseby walked in from her school in Oak Lawn township to speak on her subject.

The Red Cross in time of disaster, was the subject of Holman I. Pearl, of Crosby. Mr. Pearl told of the excellent work done by the association during the Milford mine disaster a year ago.

Mrs. Ellingson gave a splendid general talk on the value of the Red Cross nurse in the home, the school, the community, and in time of disaster.

Dr. J. K. Anderson, of the Deerwood sanatorium, told of the assistance given by the Red Cross nurse in the tuberculosis work of the county.

Mrs. Murray presented a paper on the benefit of the Red Cross nurse to the rural home.

These papers proved to be of such an interesting and instructive nature that a portion of them will be published in the Dispatch, as will also the reports of the secretary, treasurer, and chairman of the roll call, in the hope that a more general understanding can be had of the accomplishments of the Red Cross in Crow Wing county.

Dr. R. A. Beise, county health officer, gave a very able address on the smallpox situation locally and the value of vaccination. He then asked the Red Cross nurse, Miss Thora Ingebritson, to tell of her work in connection with the prevention of this disease throughout the county. Her report showed that through her efforts, the majority of the townships had taken preventative measures and that a large percentage of rural school children had been vaccinated.

Directors present at Thursday's meeting included Mrs. Thabes, Mrs. E. J. Quinn, Mrs. Ellingson, Mrs. C. B. Rowley, Mrs. Bertha Theviot, Mrs. Angus Murray, Mrs. A. C. Weber, Miss Ada Dye, W. C. Cobb, J. P. Anderson, O. A. Peterson, F. H. Gruehagen, Dr. R. A. Beise.

The directors will meet on next Wednesday afternoon, February 11th, at three o'clock at the Chamber of Commerce, at which time they will elect officers for the coming year.

RADIO COLUMN 'BRAINERD NIGHT'

The end is not yet in sight regarding correspondence on "Brainerd Night," on Gold Medal WCCO Station, Minneapolis-St. Paul.

Little Falls
Listened to your entire program Friday night, and enjoyed all of it. Signed E. Buehl and party, Little Falls.

From Pequot Review
Twin Lakes correspondence of Pequot Review: The J. J. Borst family had the pleasure of listening to the Brainerd program from the radio station WCCO, Minneapolis and St. Paul on Friday night. Walter Wieland's description of Brainerd was very fine. The Elks trio sang three songs that were very good. These with a short talk by our County Agent, E. G. Roth, and others, and some fine violin selections and baritone and other solos composed a program worthy of attention.

Cleveland, Ohio
Heard you had a good program Brainerd Night, writes Lyman D. Taylor of Cleveland, Ohio, to his brother, Asher Taylor of Brainerd.

Billings, Montana
I just want to drop you a few lines and let you know I heard the Brainerd people as they broadcasted over WCCO on January 30. Mr. Hess informed us about it, but forgot to tell us the time. So I did not tune in early enough. I only heard the last four numbers, but it came in good on our five-tube cabinet Atwater Kent.

It was indeed a pleasure to hear familiar names and voices over the radio and later in the evening at 10:30 I tuned in on KFI, Los Angeles, just in time to hear the announcer say, "Next will be a group of three songs by Tom Woods, the fat man from the north who has played in the films with Charlie Chaplin and also known on the vaudeville stage." So I knew he meant Tom Wood from Brainerd. His voice was very clear and the songs were very good. So I felt very near to old home friends last Friday evening.

Clarence has made himself a four-tube radio and puts it in a cornet case and carries it with him. He attaches his aerial to the bed springs in his room and gets stations from all over. This is a great enjoyment for him. He was very sorry he did not know the time set for the Brainerd program, for he would have enjoyed hearing the familiar voices over the radio. We are all real well and having a wonderful winter. Best wishes to our Brainerd friends. Signed Mrs. Clarence A. Olson, Billings, Montana.

"CAPTAIN BLOOD"
Film Mutual Benefit Bureau Commend's Film Version of Sabatini's Story

Anne Morgan, head of the Committee for Devastated France, and active in many other philanthropic and social betterment enterprises, has now enlisted in the movement for better pictures. She is vice-chairman of the Film Mutual Benefit Bureau, a volunteer organization of 250 women, whose committees view new pictures and broadcast their verdicts to schools and women's clubs in every state in the Union. Having seen Rafael Sabatini's "Captain Blood" in New York, the Bureau has given its official endorsement to this Vitaphone special, recommending it as a picture which should be seen by adults and youth alike. This big "Super Special" will be shown at the New Park on Sunday and Monday at regular prices.

Energie Gasoline may be secured at Energie Station, Stein's Filling Station, Brandt Bros. Service Motor and Lively Auto Co. 125tf

Frances Willard Supper
A Frances Willard supper under the auspices of the W. C. T. U. will be held on Monday evening, February 16 in the basement of the Norwegian-Danish Lutheran church on South 10th street. The proceeds will be given as prizes in the school essay contest. Therefore it is hoped that everyone and especially the parents will respond heartily by purchasing tickets and thus encourage the children in their efforts.

Practical. If Nothing Else
"Money isn't everything," said the old-fashioned girl. "Of course not," says her granddaughter. "Bonds or jewelry will do just as well."—Farm News.

J. C. DAVIS, SR. DIED SUDDENLY

J. C. Davis, Sr., an old resident of Brainerd, and very well known in the city, passed away at 2:30 o'clock this Saturday afternoon, death resulting from complications.

No funeral arrangements have as yet been made, but will probably be ready for announcement on Monday, at which time an account of the deceased will also be published in the Dispatch.

WHITTIER P. T. A.

Carl Wright of Park Board to Speak on Parks, Playgrounds, Children's Gardens

The Whittier parent-teachers association will hold its next regular meeting on Tuesday evening, February 10th, beginning promptly at 7:45 o'clock.

Carl Wright, of the park board, will address the meeting on the subject of parks and playgrounds and children's gardens.

The open discussion, which has been made a special feature of each meeting of this association, will be led on Tuesday evening by Mrs. C. D. McKay, on the subject, "Parenthood, The Biggest Job."

City Attorney Fullerton has promised several vocal solos, and there will be several other interesting numbers, on the program.

The Whittier parent-teachers association has enjoyed a very good attendance this season, but it especially requests that the fathers turn out in greater numbers for the meetings. A number have been attending very faithfully, but there are many others who have never attended any of the meetings, and an invitation is extended to them to be present on Tuesday evening.

FIND DONOHUE GUILTY AS CHARGED

Jury Deliberated Since 4:30 O'clock

Friday Afternoon

JUDGE SENTENCES MAN

Donohue Sentenced to Hard Labor in Penitentiary at Stillwater

The jury in the case of the state against Paul Donohue, charged with taking an Essex automobile in Superior, Wisconsin, returned a verdict finding the defendant guilty as charged in the information. C. H. Paine was foreman of the jury, which retired to its deliberations at 4:30 o'clock Friday afternoon, and returned its verdict at 9:45 that evening.

Donohue was sentenced to hard labor in the state penitentiary at Stillwater.

This concludes the jury cases in the adjourned term of the District court which opened in November. Several adjournments have been taken, which with the large number of cases on the calendar, has extended the term to this time. The jury has been excused from further service at this term.

WILLARD STATION WTAM

Cleveland Broadcasting Station is Back on Its Old Wave Length

The Electric Garage, handling the Willard storage battery and allied merchandise, has received the announcement that the Willard Battery Company's radio broadcasting station, WTAM, of Cleveland, Ohio, is back again on its former wave length of 389.4 meters, an announcement that will be of interest to all who have been following the programs from this station.

The government assigns wave lengths in kilocycles. WTAM is now working on 770 kilocycles, which figure out 389.4 meters. The station has been referring to its wave length as 390 meters, but the government inspector has asked that the exact decimal be used, since there are many new stations coming on the air in the old wave lengths.

"THE NIGHTINGALES"

Will Appear as Junior Choir at First Congregational Church

All who have ever heard the "Nightingales" sing Christmas carols will appreciate the announcement that they are to appear in a new role, as the Junior choir at the First Congregational church on Sunday morning.

Under the leadership of Mrs. Louis Knudsen this organization of girl singers will have complete charge of the singing, rendering two anthems, beside leading with the hymns and taking the responses.

They have been making very careful preparation for this service and are well qualified to do their part. The ten girls in the Junior Choir are Kathryn Allbright, Helen Bane, Louise Clausen, Doris Geist, Glenadean Mahood, Ruth Nicholson, Betty Robertson, Helen Sheets, Kathryn Sheets, and Jane Wilson.

Lively's Ford repair department use only genuine Ford parts, sold at Ford prices. 98tf

DUNN FUNERAL MONDAY AFTERNOON

Funeral Services to be Under the Auspices of Aurora Lodge of Masons

DIED FROM PARALYSIS

Richard Hamilton Dunn Was Born in 1855 in Scotland

The funeral of Richard Dunn, 114 Third avenue, Northeast, will be conducted from the Presbyterian church on Monday afternoon, at 2:30 o'clock under the auspices of Aurora lodge No. 100, A. F. & A. M.

Mr. Dunn suffered a paralytic stroke on Tuesday at the local Northern Pacific blacksmith shop, where he was employed, and passed away at a local hospital on Friday morning, never rallying from the stroke.

Richard Hamilton Dunn was born April 13th, 1855 in Rutherglen, Scotland. While still a boy he moved to Lanark, Canada, where he grew to manhood and married Miss Rose McGuire, who passed to her reward December 1923, in Brainerd.

He moved from Canada to St. Cloud and then to Brainerd, where he has resided for the past ten years.

He was a member of the Presbyterian church and has been affiliated with the Masonic order for the past forty years. He was a good husband, friend and neighbor, always practicing his religion, and will be missed by a large circle of friends.

The deceased is survived by three sisters, the Misses Jennie and Ellen Dunn, of Brainerd, and Mrs. Strang, of Edmonton, Alberta, Canada.

Energie is true gasoline, not doped. Next in grade to the highest test aviation gasoline. 125tf

VINNIE RICHARDS FAST NEARING THE TOP

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 7.—Elevation of young Vinnie Richards to second place on the national tennis ranking list did not come as a great surprise, although the wisdom of the choice may be disputed by friends of Bill Johnston, who gave way to the advance of the former Fordham star.

Richards was the outstanding star of the year in international tennis and he played consistently in a form that indicated he is to be Bill Tilden's most formidable rival for the national championship.

After a rather ordinary season in 1923, when he gave evidence that he wasn't taking the game very seriously, Vinnie came back last year with a greatly improved game and a determined attitude. The youngster is one of the very few players who believe they ever have a chance in a match with Tilden and he really believes that he is going to "do it" some time.

There are many reasons to believe that Tilden is going to retire. Perhaps he will not give up the game this year, but his friends believe that he has so many ways in which to use his time for a more lucrative occupation than tennis that he cannot afford to make the sacrifice for the game.

Glory, such as Tilden has been winning on international courts for five years, eventually loses its novelty for star athletes and they begin to get sour on fame. The reward of glory is one of the few compensations for an amateur athlete, although Tilden has been making a comfortable living out of his literary work.

If Tilden does retire, Richards would be elevated to first place automatically. He might not be able to convince foreign nations that he was entitled to succeed Tilden as the international champion, but his position would be safe in national tennis.

BRAINERD HIGH GIRLS WIN FROM CROSBY NORMALS

RANGE QUINT DEFEATED BY DECISIVE SCORE OF 11 TO 7

BRAINERD GIRLS WERE "KIDS" COMPARED WITH MATURE OPPONENTS

Braierd high school girls defeated the Crosby-Ironton Normal girls on Crosby's floor by the score of 14 to 7. The Crosby Normals are fast, good shooters and wonderful passers, when handling the ball.

The game was well played and clean throughout, the teams being in action at all times.

The Normal girls had been practicing hard last week, and one could tell it, because in the first quarter they had "it all over" Braierd high girls. But the second quarter the Braierd girls came back with a bang and smashed all records.

Helen Beggs was the heavy scorer, while the rest of the team, with their skill in passing and good team work, enabled her to score.

Referee was Mr. Aimes of Little Falls. A further account of the game will be published in the next issue of the Brainonian.

HOPPE'S SISTER IS COMING CUE CHAMP

New York, Feb. 6.—Ability to play billiards of any sort well seems to run in the Hoppe family.

Willie Hoppe, champion of champions, thinks his sister, Vera, is just about the best woman player in the country.

"If she isn't the best right now, she will hold that position of honor inside of a year," says Hoppe.

Having a champion for instructor undoubtedly has had much to do with the surprising ability shown by Hoppe's sister. Hoppe himself is the last word in technique.

Wayne Munn to Defend Title in Romano Bout

Chicago, Feb. 7.—Mike Romano, Italian man titleholder, has been selected to meet Wayne Munn, world's champion, in a feature bout here Feb. 16. Billy Sandow, manager for "Strangler" Lewis, when apprised of the match, issued a statement that he will get out an injunction to prohibit promoters from advertising Munn as world's heavyweight mat champion.

SAMMY MANDELL NEW LIGHTWEIGHT CHAMPION OF WORLD

SCORED VICTORY LAST NIGHT OVER SID TERRIS IN MADISON SQUARE GARDEN

MANDELL WAS BORN IN A SMALL TOWN IN ALBANIA

(By United Press)
New York, Feb. 7.—Sammy Mandell, whose victory over Sid Terris in Madison Square Garden last night gave him the unofficial title of world's lightweight champion, is a youngster just in his 20's. He will not tell just how young he is because he wants to be old.

He was born in a small town in Albania and was brought to this country with two brothers and two sisters before he was old enough to remember anything about the trip. The family settled in Rockford, Ill. Mandell was given a high school education and intended to become a lawyer, but found in the gymnasium where he played basketball that he could box, and, as he says, "I just turned into a boxer, I guess."

The youngster boasts that he is from a small town. He insists that Rockford is the capital of the world. The best bread is made in Rockford, he claims, and the best suits are for sale there, and when the streets are paved Rockford will have the best streets in the world.

Sammy tells a story of his first experience in a New York barber shop when he didn't say no to the barber. He got a check for \$6 when he got out and he hasn't been in a barber shop in New York since.

"I make a lot of money and I'm saving it," Mandell said. "I'm helping my family along now. Some day I'll have one myself and I want to keep it in case. I'm not thinking about a family now, though."

EVERYBODY'S FIGHT FOLLOWS BOXING BOUT

ONE FAN KILLED AND MANY INJURED AT BROOKLYN

PEPPER MARTIN, BROOKLYN IDOL, KNOCKED OUT BY MIKE BALLERINO

Brooklyn, N. Y., Feb. 7.—One fight fan was killed and several others slightly injured today in a free-for-all street riot that followed a boxing bout in which Vincent (Pepper) Martin, Brooklyn pugilistic idol, was knocked out so completely by Mike Ballerino of Bayonne, N. J., that he was taken to a hospital.

The dead man is William Faehngen, who was fatally stabbed because he maintained Martin was fouled. A blow to the lower body dropped Martin to his knees for the count in the 11th round of a scheduled 12-round bout. He claimed a foul, but the referee would not allow it and declared Ballerino the winner by a knockout.

As an ambulance arrived to take the injured boxer to a hospital, members of the two factions surged into the street. Knives, automatic pistols and blackjacks appeared like magic and turmoil followed. Extra police who reached the scene a few minutes later restored order only after a series of sharp encounters.

Martin's condition is not serious.—St. Paul Daily News.

BUCK JONES & EVELYN BRENT IN "THE DESERT OUTLAW" WILLIAM FOX PRODUCTION

Showing at the Lyceum tonight only. Buck's 1st new 1925 Western special

"Wife of the Centaur" Story of Love and Passion Conflict

The eternal conflict between love and passion is the theme of King Vidor's latest Metro-Goldwyn-Mayer picture, which opens tomorrow at the Lyceum Theatre for an engagement of two days.

"Wife of the Centaur," was written by Cyril Hume upon the theory that every man is half idealist and half sensualist, and that one half, or the other, conquers over the other. Hume, in his sensational novel, depicted the struggle between these emotions in his character of Jeffrey Dwyer.

King Vidor has translated this story to the screen with the utmost fidelity, and won hearty congratula-

tions from the author for the manner in which his work was filmed.

In the romantic role of Jeffrey Dwyer, the "centaur" of the story, John Gilbert is reported to have done some of the finest work in his screen career. The character of Jeffrey is likened to the fabled centaur, as being "half man and half beast"—a poet and a sensualist at the same time.

In the leading feminine roles, equally important to the story, are Eleanor Boardman and Aileen Pringle. The former is cast as an innocent girl with whom Dwyer's idealistic half is in love, and Miss Pringle portrays a sophisticated, voluptuous woman who stirs the poet's more material instinct.

Table Cloth and Four Sheets for Ship Flag

Necessity is the mother of invention and as a result of necessity the old familiar phrase, "three sheets to the wind," has blossomed into "She waddled down the bay with four sheets to the wind."

All of this came about through Vitagraph's filming of Rafael Sabatini's famous love story, "Captain Blood," which will be shown at the New Park on Sunday and Monday.

The story concerns the good ship Arabella, mastered by J. Warren Kerrigan, as Captain Blood. As the vessel moved out into the stream on one of its roving expeditions and proceeded down the bay with full equipment of players, crew, camera-men and Director David Smith, it was observed that no flag was flying from the stern. There was a rush to cover the oversight, but no flag could be found in the lockers. Director Smith has never been bested by circumstances, like Napoleon he makes opportunity and on this occasion his genius, four bad sheets and an old red table cloth made the necessary British flag for the stern.

Director Smith rushed into the Captain's room, went to the bed upon which J. Warren Kerrigan, as Captain Blood, was reclining, resting between scenes. Director Smith invited Kerrigan to arise and seizing the sheets rushed out of the room leaving the bewildered Kerrigan gazing after him. Before the actor could recover his equilibrium Director Smith had secured two other sheets by unceremoniously routing one of the crew off his bunk and had pulled the red table cloth off the table upon which several players were taking a lunch. The scene would have made a hit in a slapstick comedy as Director Smith marched upon deck trailed by a score of bewildered players and

DO YOU KNOW WHY --- They Dignify This By Calling It Sport?

VINNIE RICHARDS FAST NEARING THE TOP

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Feb. 7.—Elevation of young Vinnie Richards to second place on the national tennis ranking list did not come as a great surprise, although the wisdom of the choice may be disputed by friends of Bill Johnston, who gave way to the advance of the former Fordham star.

Richards was the outstanding star of the year in international tennis and he played consistently in a form that indicated he is to be Bill Tilden's most formidable rival for the national championship.

After a rather ordinary season in 1923, when he gave evidence that he wasn't taking the game very seriously, Vinnie came back last year with a greatly improved game and a determined attitude. The youngster is one of the very few players who believe they ever have a chance in a match with Tilden and he really believes that he is going to "do it" some time.

There are many reasons to believe that Tilden is going to retire. Perhaps he will not give up the game this year, but his friends believe that he has so many ways in which to use his time for a more lucrative occupation than tennis that he cannot afford to make the sacrifice for the game.

Glory, such as Tilden has been winning on international courts for five years, eventually loses its novelty for star athletes and they begin to get sour on fame. The reward of glory is one of the few compensations for an amateur athlete, although Tilden has been making a comfortable living out of his literary work.

If Tilden does retire, Richards would be elevated to first place automatically. He might not be able to convince foreign nations that he was entitled to succeed Tilden as the international champion, but his position would be safe in national tennis.

BRAINERD HIGH GIRLS WIN FROM CROSBY NORMALS

RANGE QUINT DEFEATED BY DECISIVE SCORE OF 11 TO 7

BRAINERD GIRLS WERE "KIDS" COMPARED WITH MATURE OPPONENTS

Brainerd high school girls defeated the Crosby-Ironton Normal girls on Crosby's floor by the score of 14 to 7. The Crosby Normals are fast, good shooters and wonderful passers, when handling the ball.

The game was well played and clean throughout, the teams being in action at all times.

The Normal girls had been practicing hard last week, and one could tell it, because in the first quarter they had "it all over" Brainerd high girls. But the second quarter the Brainerd girls came back with a bang and smashed all records.

Helen Beggs was the heavy scorer, while the rest of the team, with their skill in passing and good team work, enabled her to score.

Referee was Mr. Ames of Little Falls. A further account of the game will be published in the next issue of the Brainonian.

HOPPE'S SISTER IS COMING CUE CHAMP

New York, Feb. 6.—Ability to play billiards of any sort well seems to run in the Hoppe family.

Willie Hoppe, champion of champions, thinks his sister, Vera, is just about the best woman player in the country.

"If she isn't the best right now, she will hold that position of honor inside of a year," says Hoppe.

Having a champion for instructor undoubtedly has had much to do with the surprising ability shown by Hoppe's sister. Hoppe himself is the last word in technique.

Wayne Munn to Defend Title in Romano Bout

Chicago, Feb. 7.—Mike Romano, Italian mat titleholder, has been selected to meet Wayne Munn, world's champion, in a feature bout here Feb. 16. Billy Sandow, manager for "Strangler" Lewis, when apprised of the match, issued a statement that he will get out an injunction to prohibit promoters from advertising Munn as world's heavyweight mat champion.

ULTRA VIOLET RAYS SPEEDED UP BASKETBALL TEAM

(By United Press)
Manhattan, Kan., Feb. 7.—"If ultra violet rays will make cattle thrive, poultry more lively and help all animals, they should help my basketball team," reasoned Coach Coursalt of the Kansas Aggies.

For three days before the Aggie-Kansas University game the farmers were given daily treatment under the rays of the school's ultra violet ray machine.

When the pistol was fired marking the close of the game it was a badly beaten bunch of Jayhawkers that left the court and the dope had all been upset as the Aggies were expected to lose by a wide margin.

When the coach was questioned concerning what made his team so "hot" he came out with the explanation: "In the game with Nebraska my men lacked 'pep,'" he said, "so I decided to make them artificially 'hot'."

The experiment seems to be proving successful as the Aggies took Ames for a drubbing in their second contest since the treatment began.

Meanwhile prize animals on the Aggie farm have had to have their hours of exposure altered to favor the athletes.

GOPHERS PREPARE FOR NOTRE DAME GAMES

Minneapolis, Feb. 7.—The Gopher hockey machine, winners over Marquette in the opening series of the season, face Notre Dame in the second home series on Feb. 9 and 10.

Although the Maroon and Gold players had little trouble in defeating Marquette, they are far from the class of last year's team. In both games the lack of smooth team play could easily be seen, while their stick handling was not of the best.

There is little doubt but that the Minnesota six will give all opposition tough scraps in the remaining games on the schedule.

In the Marquette series one player, Olson, stood out as above the rank of the average college player. Olson had a hand in all the Gopher scoring, with three goals and two assists to his credit. He was alert at all times and followed the puck nicely and displayed flashes of speed that had the fans on their feet.

Lewis Held to Draw

Milwaukee, Wis., Feb. 7.—"Strangler" Lewis, former heavyweight champion, and Hans Bauer wrestled one hour and five minutes to a draw here last night. Lewis' famous headlock availed him little against Bauer.

SAMMY MANDELL NEW LIGHTWEIGHT CHAMPION OF WORLD

SCORED VICTORY LAST NIGHT OVER SID TERRIS IN MADISON SQUARE GARDEN

MANDELL WAS BORN IN A SMALL TOWN IN ALBANIA

(By United Press)
New York, Feb. 7.—Sammy Mandell, whose victory over Sid Terris in Madison Square Garden last night gave him the unofficial title of world's lightweight champion, is a youngster just in his 20's. He will not tell just how young he is because he wants to be old.

He was born in a small town in Albania and was brought to this country with two brothers and two sisters before he was old enough to remember anything about the trip. The family settled in Rockford, Ill. Mandell was given a high school education and intended to become a lawyer, but found in the gymnasium where he played basketball that he could box, and, as he says, "I just turned into a boxer, I guess."

The youngster boasts that he is from a small town. He insists that Rockford is the capital of the world. The best bread is made in Rockford, he claims, and the best suits are for sale there, and when the streets are paved Rockford will have the best streets in the world.

Sammy tells a story of his first experience in a New York barber shop when he didn't say no to the barber. He got a check for \$6 when he got out and he hasn't been in a barber shop in New York since.

"I make a lot of money and I'm saving it," Mandell said. "I'm helping my family along now. Some day I'll have one myself and I want to keep it in case, I'm not thinking about a family now, though."

EVERYBODY'S FIGHT FOLLOWS BOXING BOUT

ONE FAN KILLED AND MANY INJURED AT BROOKLYN

PEPPER MARTIN, BROOKLYN IDOL, KNOCKED OUT BY MIKE BALLERINO

Brooklyn, N. Y., Feb. 7.—One fight fan was killed and several others slightly injured today in a free-for-all street riot that followed a boxing bout in which Vincent (Pepper) Martin, Brooklyn pugilistic idol, was knocked out so completely by Mike Ballerino of Bayonne, N. J., that he was taken to a hospital.

The dead man is William Faehning, who was fatally stabbed because he maintained Martin was fouled. A blow to the lower body dropped Martin to his knees for the count in the 11th round of a scheduled 12-round bout. He claimed a foul, but the referee would not allow it and declared Ballerino the winner by a knockout.

As an ambulance arrived to take the injured boxer to a hospital, members of the two factions surged into the street. Knives, automatic pistols and blackjacks appeared like magic and turmoil followed. Extra police who reached the scene a few minutes later restored order only after a series of sharp encounters.

Martin's condition is not serious.—St. Paul Daily News.

LOST AND FOUND—CALL 74

BUCK JONES & EVELYN BRENT IN "THE DESERT OUTLAW" WILLIAM FOX PRODUCTION - Showing at the Lyceum tonight only. Buck's 1st new 1925 Western special

"Wife of the Centaur" Story of Love and Passion Conflict

The eternal conflict between love and passion is the theme of King Vidor's latest Metro-Goldwyn-Mayer picture, which opens tomorrow at the Lyceum Theatre for an engagement of two days.

"Wife of the Centaur," was written by Cyril Hume upon the theory that every man is half idealist and half sensualist, and that one half, or the other, conquers over the other.

Hume, in his sensational novel, depicted the struggle between these emotions in his character of Jeffrey Dwyer.

King Vidor has translated this story to the screen with the utmost fidelity, and won hearty congratulations from the author for the manner in which his work was filmed.

In the romantic role of Jeffrey Dwyer, the "centaur" of the story, John Gilbert is reported to have done some of the finest work in his screen career. The character of Jeffrey is likened to the fabled centaur, as being "half man and half beast"—a poet and a sensualist at the same time.

In the leading feminine roles, equally important to the story, are Eleanor Boardman and Aileen Pringle. The former is cast as an innocent girl with whom Dwyer's idealistic half is in love, and Miss Pringle portrays a sophisticated, voluptuous woman who stirs the poet's more material instinct.

Table Cloth and Four Sheets for Ship Flag

Necessity is the mother of invention and as a result of necessity the old familiar phrase, "three sheets to the wind," has blossomed into "She waddled down the bay with four sheets to the wind."

All of this came about through Vitagraph's filming of Rafael Sabatini's famous love story, "Captain Blood," which will be shown at the New Park on Sunday and Monday.

The story concerns the good ship Arabella, mastered by J. Warren Kerrigan, as Captain Blood. As the vessel moved out into the stream on one of its roving expeditions and proceeded down the bay with full equipment of players, crew, cameramen and Director David Smith, it was observed that no flag was flying from the mast. There was a rush to cover the oversight, but no flag could be found in the lockers. Director Smith has never been bested by circumstances, like Napoleon he makes opportunity and on this occasion his genius, four bad sheets and an old red table cloth made the necessary British flag for the stern.

Director Smith rushed into the Captain's room, went to the bed upon which J. Warren Kerrigan, as Captain Blood, was reclining, resting between scenes. Director Smith invited Kerrigan to arise and seizing the sheets, rushed out of the room leaving the bewildered Kerrigan gazing after him. Before the actor could recover his equilibrium Director Smith had secured two other sheets of the crew off his bunk and had pulled the red table cloth off the table upon which several players were taking a lunch. The scene would have made a hit in a slapstick comedy as Director Smith marched upon deck trailed by a score of bewildered players and
